PREFATORY NOTE

This index undertakes to deal only with the printed reports of administrative officers, legislative committees, and special commissions of the states and with governors' messages for the period since 1789. It does not refer to constitutions, laws, legislative proceedings or court decisions, except in so far as they happen to be found in the class of documents above mentioned. It attempts, on the other hand, to furnish a list, as complete as possible, of all the documents and messages which fall within its scope, in whatever form they have been published, whether separately, in collected documents, legislative journals or volumes of laws, and to indicate the volume in which they may be found. In addition to furnishing a list of reports and messages, the index undertakes to supply a reference by volume and page to all material of economic importance which they contain, with the exception of that contained in the reports of bureaus of labor before 1902. The reason for this exception is that these reports have already been indexed by the late Carroll D. Wright, when United States Commissioner of Labor,[1] in a volume published by his department in 1902.

Although the index is confined to matter of economic bearing, the term " economic " has been given a broad interpretation. In view of this liberal interpretation it is believed that the index will constitute a useful addition to the resources of students of almost any aspect of American history.

It will be seen that the present index differs both in scope and character from R. R. Bowker's " State Publications," the valuable pioneer work in this field. It is narrower in scope than " State Publications," which aims to present a list not only of reports and governors' messages but of all state documents; but in the field which the present work covers it contains not only a more complete list of documents than has hitherto been published but also an index of their contents in so far as these have an economic bearing.

The arrangement is alphabetical by topics. The references under each topic are divided into two groups, viz., " serial " and " non-serial." Within each of these divisions the arrangement is chronological. Numerous cross-references will, it is hoped, make it possible to discover with little difficulty all the material bearing on a topic. A division of serial reports into more than one series occurs whenever there is a change in title, in the authority making the report or in frequency of issue. It will be seen that this division is not an arbitrary one. It is made in the belief that it will contribute to a clearer understanding of the facts than would a narrative explanation.

Uniform entry words for subjects recurring in different states will be retained throughout the series. It will thus be possible to make a study not only of the historical development of an economic subject as reflected in the documents of an indi-

[1] Index of all reports issued by bureaus of labor statistics in the U. S. prior to Mch. 1, 1902. Wash., 1902. 287 pp. 8°.

vidual state but also to make a comparative study of that development as it has taken place in the country at large. To accomplish this purpose it has been necessary to make the selection of entry words without reference to the peculiarities of local usage, such peculiarities being recognized in the case of each state by cross-references. The abbreviations employed are believed to be sufficiently obvious to make a table of them unnecessary. Unless otherwise stated the size of the books is octavo.

A feature introduced in the New York part of this index, but not employed in the preceding parts (i. e., Maine, New Hampshire, and Vermont), is the system of references to topics from locality. This feature has been made a part of the succeeding issues.

This volume follows in the main the form of its predecessors. One change of importance has, however, been made, namely, the addition to the list of topics of the names of those persons who have exercised an important influence on the development of the economic life of the state. Upon examination it will be seen that certain names recur in Ohio in important executive capacities in connection with such vital economic interests as Finance, Banks, Public Works, Taxation, Education, etc. More particularly, it should be noted, is this the case before the adoption of the constitution of 1850. Among these names may be mentioned those of Thomas Worthington, Governor and expounder of an advanced educational policy; Alfred Kelley, prominently concerned with the public works and father of important tax and bank laws; John Brough, able auditor and war Governor; Charles Hammond, defender of the state's interests in the bank tax cases; Jeremiah Morrow, representative and senator in Congress, Governor and Canal Commissioner; Peter Hitchcock, state representative and state senator, representative from Ohio in U. S. Congress, judge of the Supreme Court of Ohio, at intervals, 1819-1852. Later the name of Charles Reemelin occurs repeatedly as the author of searching reports on the financial and banking conditions of the state. John H. Klippart and Norton S. Townshend were indefatigable in organizing the agricultural interests of Ohio. In our own day, the name of C. O. Probst, secretary of the state board of health, stands for successful effort in the furtherance of public health and sanitation. While this introduction of the names of persons into the body of the index is admittedly an innovation, it is believed that the light which it throws on the causes of important economic movements will be distinctly helpful to the student.

Unexpected difficulties have delayed the completion of this volume of the index. The first was the discovery of the existence of a large though widely scattered body of early printed documents of which there had hitherto been no record. Although every reasonable effort has been made to find these documents, some have without doubt escaped the notice of the compiler. In order to make this early record as complete as possible, the Senate and House journals were read for orders to print, and entries have been made for all items which were found to have been ordered printed, although no copy may have been found. The " not found " note attached to these items in the index does not signify that there may not be copies in some of the libraries examined. Although every facility was most generously extended the compiler by the Ohio libraries, there is in every library uncatalogued material, in particular pamphlets, and variations in shelf arrangement, etc., which preclude a definite statement in any event. A second difficulty is the existence to an unknown extent of German editions of many executive reports.

A few were found in the libraries of central and southern Ohio, but by far the best collection is in the Western Reserve Historical Society, in Cleveland. A third difficulty is the unrecorded fact that for the years 1850 and 1851 there exist two English departmental editions of the executive reports, viz., the Senate and House editions, each body, in those years, employing its own printer, in addition to the document edition and, in many cases, a German edition. There were also two editions of the Collected Documents, locally known as Executive Documents, for these years. Collectors would be very likely to overlook this fact, no mention having been made of it before. The compiler did not happen upon it until the index was well under way, necessitating a revision of all the page references of all the reports of the state for these two years.

The present volume has been preceded by ten similar volumes, devoted to the states of Maine, New Hampshire, Vermont, New York, Rhode Island, Massachusetts, California, Illinois, Kentucky, and Delaware, respectively. It will be followed by others, each devoted to a single state. The work when completed will, therefore, furnish an index to the economic material in the reports and governors' messages of all the states of the Union.

In the preparation of this volume the collection of the New York Public Library has been used as a basis, and, unless otherwise shown, the material indexed is in that library. The collections of the Library of Congress, the Ohio State Library, the Western Reserve Historical Society, the Cincinnati Law Library, the Cincinnati Public Library, the Ohio Historical and Philosophical Society, and Marietta College Library have also been examined. Acknowledgment is made for courtesies extended by each of these institutions in the course of the compilation of the present volume.

COLLECTED DOCUMENTS

Strictly speaking the Collected Documents of Ohio do not begin until 1836/7, but it will be noted that documents, other than the Journals, were printed almost from the beginning of statehood. An attempt has been made to present a record of these earlier documents. The number which has escaped destruction would seem to be extremely small. While not complete, it is hoped that the record here given may have a salutary effect in preserving existing copies from neglect, and in discovering copies not here listed. The New York Public Library acquired a considerable number of these early documents in 1902, by purchase. Marietta College has a very fine collection, as has also the Ohio Historical and Philosophical Society. The Act authorizing the collection of the state documents and their printing in volume form was passed Dec. 16, 1836.

TERRITORY OF THE UNITED STATES NORTH WEST OF THE OHIO

Under the Ordinance of July 13, 1787

First Grade

1788-1799

Executive Records

By the ordinance of 1787 it was made the duty of the secretary of the territory to keep, among other records, "the proceedings of the governor in his executive department," and to transmit an authentic copy thereof every six months to the Secretary of Congress. There is in the Department of State at Washington a collection of papers of proceedings of the Governor of the North West Territory. The record begins with the arrival of Governor St. Clair at Fort Harmar on July 9, 1788, and closes with June 20, 1795. A copy of these papers has been made for the Ohio State Library. Neither collection is indexed. Many of the papers in the collection are printed in the Wm. Henry Smith St. Clair Papers.

Legislative Minutes

Laws were adopted by the Governor and Judges of the Territory of the U. S. North West of the Ohio in 1788 (at Marietta), in 1790 (at Vincennes and Cincinnati), in 1791 (at Cincinnati), in 1792 (at Cincinnati), in 1795 (at Cincinnati) and in 1798 (at Cincinnati). The text of these laws is in print in a contemporary, and in a facsimile reprint edition. It is to be supposed that a journal of the proceedings of the meetings at which these laws were adopted, was kept. If such a journal exists in manuscript it has not been discovered. A portion of the minutes of 1795 is in print, and is collated below.

An extract of the foregoing may be found in the St. Clair Papers, v. 2: 353-355.

On August 7 it was resolved that thereafter the minutes, together with the accounts of the public treasurers, be published as exhibited from time to time, by any printer willing to print and publish the same for his own emolument, but at his own expense. Whether this resolution had any bearing on the fact that the minutes of the remaining sessions until the final adjournment on August 25 were not printed, the compiler is unable to say. Maxwell, the printer of the laws of 1795 (known as the "Maxwell Code"), was also printer of the Centinel, and, indeed, printed the laws currently in the Centinel. The Centinel was the first newspaper published in the North West Territory, and existed from 1793 to 1796. The Ohio Historical and Philosophical Society (Cincinnati) owns a complete file nos. 1-130, Nov. 9, 1793-May 14, 1796, except nos. 1, 2, 10, 34, 67, 71, 81, 82, 90, 93, 114 and 122. Journal of the House of Representatives. Cincinnati, Carpenter & Findlay, MDCCC. 211 (1) pp., 4°.

Two copies of each of these journals were seen by the compiler, both in Cincinnati. One copy belongs to the Ohio Historical and Philosophical Society and the other to the Cincinnati Law Library. The former copy is the James McBride copy and the latter was originally owned by Jacob Burnet. James McBride was secretary of the territorial legislature. His manuscripts are also owned by the Society. Among them are the manuscripts of the territorial journals. Jacob Burnet was a member of the Legislative Council. Publications from these manuscripts have been made in the Quarterly Publication of the society.

2 session, 1857
Jan. 5-April 18, 1857

Relative to the occasion of this adjourned session there is the following paragraph in the special report of the finance committee (Alfred Kelley, chrm.) dated April 7, 1856.

"This consideration—the necessity for the investigation [of the treasury department]—the great inconvenience and enormous expense of keeping the General Assembly in session to await the action of this and one or two other investigating committees formed one of the strongest arguments in favor of holding an adjourned session of the General Assembly." (p. 43 of Rept.)

From 1864 to 1876 the provisions governing the publication of the reports of the attorney general were differently construed by the attorneys-general then in office. The constitution provided for biennial reports and the act of April 16, 1857, provided for an abstract of transactions covering the fiscal year. The reports from 1864 to 1867 are annual and are general in nature. In 1874 the report is an abstract of the financial transactions only, according to the attorney general's interpretation of the act of April 16, 1857. From 1867 to 1872/3 and from 1875/7 to 1885/7 the reports are again regular biennial reports as provided for by the constitution. The report for 1874/5 is a general biennial report for the calendar years 1874 and 1875 and a report of the financial transactions of the office for the fiscal year 1875.

By sec. 8, art. 8, of the constitution the atty. gen. is also made one of the comrs. of the sinking fund, and by statutory provision a member of the state bd. of equalization upon r.r. and bank appraisements for taxation, and of the bd. of claims, and one of the comrs. to let contracts for public printing. It is also made his duty to examine and certify as to the correctness of all applications for incorporation of insurance cos. and savings banks.

BULLETINS

1 series

1882-1887

Such bulletins as were published during these years were intended for newspaper use. They were afterward incorporated in the annuals. In separate form, they were soon out of print, and are now not obtainable in pamphlet form. No bulletins were issued during the inaugural year. A weekly issue was begun in 1883 (?), copies being sent to the Ohio newspapers and to a number of agricultural journals in other states. It is very likely that these issues were an early form of the present Press Bulletins.

2-7 in 7 ann. rept. agric. exper. station 1888.*

Beginning with 1889 the bulletins ceased to be reprinted in the annual reports, but they were attached to these reports in the form of appendices, the annual reports being paged in Roman numerals. The consecutive numbering of the bulletins began with no. 41. The state law of 1882 provided only for the publication by the state of an annual report of the station, to be published in the Ohio agric. rept. and in a pamphlet edition of 5000 copies. The national law of 1887 (Hatch Act) required the publication at intervals of not less than three months, of bulletins, or reports of progress. As no provision was made by the state for the publication of these bulletins, it became necessary to make such provision. Accordingly, by virtue of jt. res. passed in April 1889, a monthly bulletin was issued, and the annual report of the station to be included in the annual report of the board of agriculture, was henceforth limited to a mere summary of the year's operations, with a financial statement. Up to the end of 1896, the annual volumes cover the calendar year, after that they cover the fiscal year ending June 30, the change being made at the request of the U. S. dept. of agriculture.

* "Substance of these bulletins (not the actual text), somewhat extended and amplified in some cases, is incorporated within this rept." (7 ann. rept. agric. exper. station 1888: 16.)

PRESS BULLETINS

1 series

This series division is arbitrary and is adopted to distinguish what are probably the earlier, i. e., the unnumbered and undated issues, from the later numbered, and still later numbered and dated issues. The following collation of these bulletins was made up from the files in the Library of the Univ. of the State of Ohio and those of the N. Y. Public Library. The former depository possesses the most complete file of Ohio experiment station publications. Beginning with no. 194 the N. Y. Public Library file of these bulletins is complete.

Checklist

Ohio Experiment Station. Its board of control and working force. Information for the benefit of enquirers.

AGRICULTURAL SOCIETIES: COUNTY

serial

1 series

1846-1856

Although agricultural societies had been organized in twenty, or more, counties of the state in 1846, only a few had had occasion to avail themselves of the provisions of the law granting aid from the county treasuries. The majority of the societies, therefore, had not been required to make reports to the Board of Agriculture.

In order to obtain information in relation to the condition of agriculture in a larger number of counties, the Board caused a circular (for text see ann. rept. bd. agric. 1846, p. 17) to be addressed to individuals in the various counties from whom it was thought

this information could be obtained. Whenever, in any county, an agric. society had been organized according to the provisions of sec. 1, Act for the encouragement of agric., passed Feb. 27, 1846, the report in response to the circular, was made by the society. These reports continued to be made from the counties until 1856. By this time the organization of agricultural societies had become sufficiently strong to warrant a hearing from the societies. The returns from 1846 to 1856 comprise statements as to yield, value of crops, injury to crops, livestock, mnfg. industries, markets, mineral resources and fair notes. Only a few of the counties made returns every year, nor is there any regularity in the returns themselves, so a county may send in a full report on its markets and mnfg. industries in one year and omit to refer to them the next year. As much as possible of the whole returns has been indexed for the various specific subjects. As a rule the figures quoted by the reporters are estimates. The only definite statements made are those relating to the injuries to crops, to location of markets and to price of produce.

In explanation of what may, at first glance, appear to be an unnecessary amount of detail in the following collation several things should be considered. First to be taken into account is that various kinds of agricultural organizations existed, as county, district and all other or independent, second that the county societies were, with more or less uniformity, struggling to meet the requirements of the law and to reap its benefits, and third that their reports of progress, etc., were printed in the reports of the state board of agriculture as they were received from the societies.

The intention to indicate the character of agricultural organization in the state, by preserving the classification of the societies as adopted in the state and collating the record of each society as found in the reports of the board of agriculture, although it did involve some labor, seemed to be warranted by the fact that similar material could be found in no other one place.

AGRICULTURAL SOCIETIES: COUNTY INDIVIDUAL SOCIETIES

The organization of county agricultural societies was provided for in sec. 1, of the Act for the Encouragement of Agriculture, passed Feb. 27, 1846. Whenever 30 or more persons in any one county had adopted a constitution and by-laws in accordance with the rules and regulations of the State Board of Agriculture, and had raised a sum of money, not less than $50, the county treasurer was authorized to pay a like sum, never to exceed $200, to the treasurer of the society. It was made the duty of the society annually to offer and award premiums for improvements for the several branches of agriculture, as specified in sec. 2 of the act quoted above. The list of awards and an abstract of the treasurer's account were required to be published annually in a newspaper of the district. Reports of proceedings, etc., were to be made and forwarded to the State Board of Agriculture, at its annual meeting in December.

In a few cases returns had been made by county agricultural societies since 1846. The returns from these societies were, however, printed as coming not from the society but from the county. They are entered above in the serial group under Agricultural Societies: County.

It will be noted that the returns collated below cease with the year 1889. Beginning in 1890 the returns from agricultural societies are printed in tabular form in the annual rept. of the bd. of agriculture. They show, for each county, the officers, place of holding the annual fair, the entries and awards and the receipts and disbursements.

AGRICULTURAL SOCIETIES: STATE

A state agricultural society never existed in Ohio. There was a State Pomological Society which exists at present as the State Horticultural Society; see below, Agriculture. Crops. Fruit.

AGRICULTURAL STATISTICS

From 1858 to 1883, agricultural statistics were reported by township assessors to county auditors and by them to the auditor of state. From 1884 to 1896 the statistics were gathered by assessors and reported to the secretary of state. From 1897 to 1904 they were gathered by assessors and reported to the secretary of agriculture by co. auditors. Livestock statistics continued to be reported to the auditor of state by county auditors from 1877 to 1904.

There is a table showing the general condition of agriculture in the several counties, with the name of the person making the report in the ann. rept. of the comr. of statistics beginning with 1857 (pp. 75-86) and continuing through 1862.

1846. Ross Co. Agric. Socy. offers rewards for best statistical tables of crops in each township. (1 A.R. bd. agric. 1846: 61.)

——. Gathering and publishing agric. statistics was inaugurated by bd. in 1846; printed circulars were issued asking for statistics rel. to agric. (29 *same* 1874: 77.)

——. No reliable statistics of county agric. products; such statistics can only be procured by state authority; proposal to authorize township assessors to collect agric. statistics; federal census of 1840 only basis. (1 *same* 1846: 65.)

Stmt. is made in regard to Summit Co., but is probably generally applicable.

——. Importance of agric. statistics, unreliability of federal crop returns in patent reports. (1 *same* 1846: 26.)

1846-1847. Circulars [of bd. of agric. to individuals and to cos. rel. to statistical returns].

In Documents as follows:

1846 in 1 A.R. bd. agric. 1846: 21-22.
1847 " 2 " " " 1847: 19-20.

1847. Desirable that state should make provision by which county or township collectors could gather agric. statistics. (2 A.R. bd. agric. 1847: 51.)

1849. " Source of regret that there has never been any provision for obtaining agric. statistics more accurately." (4 *same* 1849: 73.)

——. List of interrogatories to be answered by township committee of each township in co., and delivered to secy. of the socy. on day of exhibition, in a written rept. (4 *same* 1849: 162-163.)

These interrogatories relate to farm crops, exports, live stock industries, trades, agric. improvements, fertilizers, mineral resources, water privileges, etc., of the township.

1851. Benefit to be derived from fuller and more careful collection of agric. statistics, establishment of an agric. bureau under supervision and in connection with state bd., etc. (6 *same* 1851: 22.)

* This is the only one found to have been separately issued for this period.

AGRICULTURAL STATISTICS—cont'd

non-serial—cont'd

1851. Res. of Dec. 3, rel. to establishing bureau of statistics and agric; under direction of state bd. of agric., and similar bureau in connection with general govt. (6 *same* 1851: 32.)

1852. Act requiring county assessors to ascertain quantity of wheat and corn raised in Ohio passed after assessment of personal property had been made; great difficulty inducing auditors to go over townships second time; many made no returns. (A.R. auditor 1851/2: 40-41.)

Paging from Collected docs.

1853. Statistics of agric. and mineral productions of Ohio; table of wheat and corn production of much assistance to bd. of equalization; limited range of statistics regretted; additional items suggested; for inclusion. (*Same* 1852/3: 319.)

Paging from Collected docs.

1856. " The returns of the federal census of 1850, which embraced the farm products of 1849, do us a great injustice. That year was one of unusual disaster to the farmers of Ohio, their wheat crop having been almost destroyed by the weevil." (Govs. mess. (Medill) Jan. 1856.)

1857. Law should be passed authorizing assessors, or some other officers, to procure ann. as correct returns of all agric. products as possible. (12 A.R. bd. agric. 1857: 47.)

1860. " Ohio only state in Union, where ann. enumerations are made and published of acreage, produce, and live stock;" first enumeration of horses and cattle taken in 1826, of sheep and hogs in 1846, of wheat and corn in 1848, of rye, barley, oats, buckwheat and hay in 1858; recommended that statistical returns be made of entire agric. resources instead of principal crops only. (15 *same* 1860 [pt. 1] 11-12.)

1869. List of counties which failed to make repts. during year. (24 *same* 1869: 320.)

1872. "Agric. statistics are returned by township assessors in spring season upon crops of preceding autumn." (A.R. secy. state 1872: 148.)

1879. " The State Bd. of Agric. is now at work inaugurating more thorough system of reporting crops of state; intended that these repts. shall be published mo. during the summer and autumn of each yr., and made up from reliable information furnished ....by....authorized reporters...." (34 A.R. bd. agric. 1879: 755.)

1881. State bd. of agriculture: collection of statistics, etc. (Govs. mess. (Foster) Jan. 1881: 21.)

——. Unsatisfactory system of collecting agric., mechanical and mining statistics; approval of recommendations made by secy. of state and state bd. of equalization. (A.R. auditor 1880/1: 44.)

1882. Wise expenditure of apprn. for collection of crop statistics. (Govs. mess. (Foster) Jan. 2, 1882: 22.)

1883. Continuance of apprn. for collection of crop statistics by bd. of agric. recommended. (*Same* (Foster) Jan. 1883: 15.)

——. Address of secy. Chamberlain on agric. statistics and farmers' institutes. (37 A.R. bd. agric. 1882: 43-46.)

1884. Suggestion by secy. of bd. of agric. that all statistical questions be struck off from assessors' blanks, and that the collection be intrusted to special agts.; or that collection of agric. and hortic. statistics be committed to bd. of agric.; those of labor and mfg. to comr. of labor, etc. (39 *same* 1884: xiii-xiv.)

Corresponding Secretary's Report

From 1851 to 1867 a synopsis of the agric. history of the year was presented to the bd. by its corresponding secy. While the substance of the report being general, might not have called for an itemized collation, the men who made the reports did so much to promote agric. and other resources in Ohio, that it has seemed proper here to identify them with their work by means of this collation.

1830. Ten days in Ohio; written from Columbus for a journal in New Haven, Conn. (14 *same* 1859: 489-490.)
Values of clover, cattle food, great herds of cattle in Madison Co.

1832-1894. Retrospective review of agric. legislation and progress in state, by W. W. Miller, pres. of bd. of agric. at the 50th ann. agric. convention. (49 *same* 1894: 195-198.)

1837. Agric. products commanded higher price in 1837, than ever before in history of the state; abundant crops and unexampled augmentation of prices produced most disastrous consequences: farmers involved themselves in debt for new lands, etc. (14 *same* 1859: 515.)

1840-1874. Agric. statistics of Ohio: no. of cattle, sheep, hogs; no. of bu. of wheat, corn; population each yr. (29 *same* 1874: 112.)

1846. Eastern portion of state better adapted to grazing than to growth of grain; products of the dairy, the farmers' principal reliance; wheat and corn grown principally for home consumption; fruit of superior quality extensively and profitably grown; farms in the Reserve smaller than in other parts of state, but better cultivated and improved, and exhibit a degree of intelligence, industry, and thrift not seen elsewhere in state. (1 *same* 1846: 8.)

——. Northern belt of Ohio, how watered; Eastern portion a free, or sand stone region; Western division; a limestone country and new country, great part of it as yet unoccupied; lands of this division generally rich, and some of those improved upon the water-courses very productive; settlements chiefly confined to the water-courses and their immediate vicinity; lands distant from the streams and not drained by them in some instances covered with forest trees; improvements passing through this portion of state must render all this portion of state valuable, and soon bring wild lands of this region into requisition for agric. purposes. (1 *same* 1846: 8-9.)

——. From table land betw. sources of Little Miami and Scioto rivers, elevations too high for profitable culture; region timbered by white and black oak; character of soil; in eastern part sandstone predominates, wheat the staple product, and some corn cultivated; horses, cattle, sheep, and hogs constitute important part of profit of the farmer of this region; Cincinnati and Chillicothe, points at which wheat and pork usually marketed, agric. of distr. undergoing a favorable change. (1 *same* 1846: 5.)

1846-1874. Brief rept. of progress in agric. affairs since establishment of bd. of agric. and names of prominent workers of the past. (29 *same* 1874: 75-80.)

1848. On evidences of increasing interest in agric. improvement in Ohio. (3 *same* 1848: 3-5.)

——. On importance and necessity of presenting to the representatives and to the people, a brief history of the improvements in agric., with a summary of ann. products of the state; suggestions for collecting statistics for this purpose. (3 *same* 1848: 5-6.)

1849. Urging upon attention of legisl. the propriety of encouraging, by every proper means, the agric. interests of the state. (4 *same* 1849: 21-22.)

1850-1866. Retrospective view of what agric. has accomplished; its present needs and purposes. (21 *same* 1866 [pt. 1]: 42-48.)

1852. Modes of improving the interests of agric. suggested by corrresp. secy. (7 *same* 1852: 43-45.)

——. Agric. reconnoissance of Ohio; by corresp. secy. [W. W. Mather.] (7 *same* 1852: 33-41.)

——. Agric. and veterinary schools, an experimental farm, analyses of soils, plants and of manures, geol. and agric. surveys, schools of applied science, and good agric. and mechanical papers, yet necessary to the full development of industrial interests of Ohio. (7 *same* 1852: 32.)

1853. Importance of scientific agric., paper read at co. fair at Medina, by Gen. Bierce. (8 *same* 1853: 265-277.)

1854. Summary of speech of Mr. Brush (a director of Central Ohio R.R.) at the Agric. Convention, on r.rs. and their policy with regard to agric. (9 *same* 1854: 19.)

——. On security of the agric. interests of the state compared with that of mercantile interests (9 *same* 1854: 9.)

1855. Address of Dr. J. A. Kennicott, of Ill., at Ohio State Fair. (10 *same* 1855: 108-118.)
Agric. in the early ages, schools, the introduction of steam, r.rs., agric. schools, political agitators, home influence and common schools.

——. Brief review of agric. History of Ohio,—effects of early settlers' method of cultivation; era of construction of the Ohio canals and other public works, with the consequent rapid agric. improvements; organization of state and co. societies, and their beneficial results. (10 *same* 1855: 10-11.)

——. To meet great decrease in farm products, and increase of non-agric. population, improvement will be required in present modes of farming; few of present agric. books contain information useful to Ohio farmer, being chiefly compilation from European, and especially English, works. (10 *same* 1855: 13-14.)

——. Owing to growth of population of Ohio, within few yrs., there will be a home market for all or nearly all farm produce of State, even under improved system of farming. (10 *same* 1855: 19-20.)

——. Address of J. M. Millikin, before Warren Co. Agric. Socy., Sept. 27; relative importance of agric. pursuits, proportion of population engaged in agric., productive capacity of farmers, agric. wealth of Ohio; what are our duties? we should properly cultivate the soil, want of proper education, what constitutes a good farmer? our state govt. neglects agric. education, our national govt. gives no encouragement to agric., policy of other govts., the contrast—a remedy proposed, prejudices of farming—"book farming," etc., farmers, lawyers and merchants, are farmers faithful in the fulfillment of their obligations? deception in horse dealing, other reasons for the more thorough education of the farming population, etc. (10 *same* 1855: 282-298.)

1856. Efforts of bd. during yr. to increase growing interest in improved farm, and fruit culture, and rearing of better kinds of farm stock, successful. (11 *same* 1856: 14.)

1857. Estimated value of products and net income, in comparison with capital employed. (A.R. comr. of statistics 1857: 21.)

Crop Bulletins

The best file of these crop reports is in the Library of the Ohio State University. The Ohio state bd. of agriculture also has a good file. In view of the fact that in all probability it will never be possible to establish a file in one place, considerable care was taken to make the collation both full and accurate. See also under Climate for weekly crop bulletins.

serial

1880-1904. [Official rept. of the division of crop and livestock statistics.]

The titles vary; they are briefly indicated in the following collation. The title as given as above was only very recently adopted.

1880

Nov. Ohio crop report. Based upon repts. of township correspondents returned to the state bd. of agric. Nov. 10, 1880, together with a paper by the secy. on wheat culture in Ohio. Columbus: Nevins and Myers, 1880. 53 pp., 1 foldg. sheet.
This is the first Ohio crop bulletin; only one copy was found, viz., in the Marietta College Library. The folding sheet is a wheat map for 1879 and 1880 resp.

AGRICULTURE—cont'd

Crops

1846. All crops for present yr. unusually abundant and prices good; demand for products of state so great that all means of transportation afforded by the great public improvements of the state have not enabled purchasers to transport it as rapidly as it was poured in upon them by the people, so that large surplus remains in hands of the farmers, awaiting opening of navigation in spring, such abundance at fair prices, stimulates the people to greater effort in future. (1 A.R. bd. agric. 1846: 9.)

1849. Past yr. one of great productiveness, except in wheat and fruits; general prosperity and progress characterized by the great farming interests of Ohio; wheat all over state destroyed by red rust; no effectual means yet known to avoid recurrence of disaster; first appearance in Ohio of "wheat midge" or "wheat fly"; crops also injured by "sun blight"; comment. (4 *same* 1849: 6-8.)

——. New crops suggested for Ohio: broom-corn, barley, buckwheat, various grass seeds, Castor oil bean, flax, hemp, roots [i. e. rutabaga, mangel, sugar beet, turnips, carrots, etc.], madder, peppermint and spearmint, tobacco, raising of silk worms, bees, and culture of the vine for mnftre. of wine; comment. (4 *same* 1849: 13-17; 20-24.)

1849-1853. Average crops of Ohio for 5 yrs., and estimate for 1855. (10 *same* 1855: 10.)

1850. Effect of the drouth on the wheat, corn, hay, grass, oats, and potato crops in the state. (5 *same* 1850: 5-7.)

Paging from Collected docs. 1850 [pt. 2], doc. 1.

1851. Principal agric. productions of the U. S., that are important crops in Ohio, given by states. (6 *same* 1851: 216.)

——. General remarks on agric. interests of state: fair average for the yr. owing to increased price for some products; fruit crops of central region of state, entire failure, and crops in some places injuriously affected by an extreme drought. (6 *same* 1851: 17.)

1851-1858. Tabular stmt. showing acreage under cultivation in statute measure and total produce each yr. (13 *same* 1858: xxv.)

1854-1855. Staple crops of past 2 seasons touched highest and lowest limits of agric. production. (10 *same* 1855: 10.)

1854-1858. Tabular stmt. of acreage and production of the several crops in Ireland (1857), Scotland (1856), England (1857), Ohio (1858); and no. of livestock in Ireland (1857), Scotland (1856), England (1854), and Ohio (1858). (14 *same* 1859: 581.)

Crops as follows: wheat, oats, barley, rye, potatoes, turnips, mangel, cabbage, flax, hay, buckwheat, corn; live stock: horses, cattle, sheep, hogs.

1855. Ann. agric. products of Ohio for the yr., largely exceed in value, the entire cotton crop of the U. S. (10 *same* 1855: 286.)

1856. Bad effects of drouth on agric. interests of state during past season. (11 *same* 1856: 10.)

1857. Ohio farmers rewarded this yr. by most bounteous crops; cereal crops more than ordinarily abundant and remarkably free from disease; depredations by the midge less severe in Ohio than in former yrs.; this pest terribly destructive in Canada. (12 *same* 1857: 20.)

——. Table; estimated amt. and value of ann. agric. productions of state. (A.R. comr. of statistics 1857: 20.)

1857-1858. Tables; actual crops and reported proportions of hay, corn, wheat, oats, barley and rye, potatoes and fruit; also comparison in losses in quantity of corn, wheat and oats. (2 *same* 1858: 22-23.)

PESTS

Notes relative to crop pests are found in the returns required by the bd. of agriculture to be made by co. societies (see above under Agricultural Societies: County) from 1846 to 1856. During two years only, viz., 1847-1848 do they appear under distinct headings, in other years forming part of the text. The portion relating to crop pests is probably the most reliable of these returns as they are not based on estimates and their value does not depend on figures. See also material under Agriculture. Crops, the county divisions.

n. d. Discovery of a practical method of preventing the ravages of wire worms. Bdside. [Press Bull. 77 of Agric. Exper. Station].

1847-1848. Nature of injury to crops during year. (2 A.R. bd. agric. 1847 (pp. 19-96)—3 *same* 1848.)

These comprise the replies recd. from the various counties in response to the circular of the state bd. of agriculture. The replies after 1848 continue to make occasional mention of crop injuries, but they are not set out under a separate heading as in 1847 and 1848. Whenever a specific stmt. was found it has been entered among the county crop reports; see above, Crops.

In 1847 the following counties reported on crop injuries: Adams, Ashland, Ashtabula, Athens, Belmont, Brown, Butler, Carroll, Clark, Clermont, Clinton, Columbiana, Coshocton, Crawford, Cuyahoga, Defiance, Delaware, Fairfield, Fayette, Franklin, Geauga, Greene, Hardin, Harrison, Highland, Holmes, Huron, Jefferson, Knox, Lake, Lawrence, Licking, Logan, Lorain, Madison, Mahoning, Meigs, Miami, Montgomery, Muskingum, Perry, Portage, Richland, Ross, Summit, Trumbull, Tuscarawas, Union, Washington, Wood.

In 1848 the following reported: Adams, Ashland, Ashtabula, Carroll, Clark, Clermont, Columbiana, Coshocton, Crawford, Cuyahoga, Darke, Delaware, Erie, Fayette, Franklin, Gallia, Geauga, Greene, Guernsey, Hardin, Harrison, Henry, Highland, Hocking, Jefferson, Lawrence, Lorain, Madison, Mahoning, Meigs, Mercer, Montgomery, Morgan, Muskingum, Ottawa, Paulding, Perry, Pickaway, Preble, Seneca, Shelby, Stark, Trumbull, Tuscarawas, Union, Washington, Wayne, Wood, Wyandot.

1857. See above, Crops, this date.

The first report contains a full statement of the proceedings which led to the establishment, by the Legislature, of the Ohio Agric. and Mechanical College and to its final location by the board of trustees. These proceedings cover the period from the passage of the Morrill Act of July 2, 1862, to the passage of the Act of the state of Ohio of March 22, 1870, accepting the grant. The more important legislative measures relative to this procedure are reprinted here, viz., the Act of April 13, 1865, to provide for the sale of land scrip and other purposes, Act of April 5, 1866, rel. to establishment of the O. Agric. and Mech. College, the Stickney res. of March 7, 1868, the Act of Feb. 10, 1870, authorizing the investment of interest accumulating on the agric. college fund, and the Act of March 22, 1870, finally establishing the college. In addition there may be found the reports of the land scrip comrs. of Dec. 20, 1865 (pp. 19-21) and of Feb., 1868 (pp. 23-27), as well as that of the jt. committee rel. to the location of the agricultural college presented to the legislature in 1869 (pp. 29-30). On pp. 66-68 will be found the by-laws, rules and regulations adopted by the bd. of trustees. The third rept. of the college contains a résumé of the origin of the college as found in full in the first rept. By Act of May 1, 1878, the Ohio Agricultural and Mechanical College became the Ohio State University. (See Education. Individual Institutions.)

COUNTY FAIRS

The items listed as "Fair Notes" under the individual counties below have been arbitrarily so called. They appear in the returns made by co. societies to the state board. As single items they might appear to have no value, but when massed the material is considerable enough to have warranted this treatment. The items appear in the text of the reports with no special indication, nor do they appear in the index to the reports, when there is one. They consist of remarks on the failure or success of the fairs, attendance, new features, etc. The quoted memoranda concerning the printed premium lists are given in order that the record of such lists having been made might be preserved. Very few copies were found by the compiler.

1859. Co. fairs almost uniformly successful in regard to attendance; receipts, and no. and excellence of articles exhibited. (14 A.R. bd. agric. 1859: xiii-xiv.)

1855. Effect of large farms on the small ones; with every new application of machinery and steam power to cultivation of the soil, the economies in cultivating agric. staples on large instead of small farms, will be increased; advantages of copartnership in farming if done by men of moderate means; large tracts of land imperfectly cultivated can not well be held on speculation as heretofore because of high prices of land and its products and high taxes; evil of exclusive ownership of land by a few proprietors; conditions in foreign countries. (10 A.R. bd. agric. 1855: 15-18.)

——. Approximate stmt. of acres of land inclosed in Ohio; miles of fence, and cost of same. (10 *same* 1855: 19.)

——. Competition of vast tracts of new and rich lands heretofore annually opened for cultivation has reduced prices of agric. products on older farms, especially the small ones, except when sustained by the uncertain stimulus of foreign demand, and then cost of transportation has usually placed the chief profits in other hands than those of the farmer; horse and steam power has been scarcely used at all in lightening labors of cultivators of the soil, and rendering them more productive; expected that under coming changes, large capitals will seek and find safe and profitable investments in lands, and power of steam be extensively employed. (10 *same* 1855: 14-15.)

1872. Table: no. and size of farms in state by cos. (27 *same* 1872 [pt. 2]: 341-342.)

1846. Plan suggested for creation of a permanent agric. fund to defray expenses of the bd., etc. (1 A.R. bd. agric. 1846: 11-13.)

1847. Res. of Dec. 8, requesting bd. to memorialize legisl. to so amend section 2 of act of 1846/7, "to create a permanent agric. fund for the state of Ohio," as to require incorporated towns and cities of state to pay 1/2 of money recd. by them for licenses issued to persons exhibiting public shows, to their co. treasurer for benefit of agric. fund. (2 *same* 1847: 17.)

——. Only small amt. to be paid into state treasury to credit of agric fund, collected by co. auditors, under law of 1846/8, from persons exhibiting public shows; corporate towns and cities claim right to license such exhibitions for corporate purpose, and as there are only a few towns in state unincorporated, law will be rendered almost entirely inoperative; urged that law be so amended as to secure object of its enactment. (2 *same* 1847: 14.)

1848. Agric. fund derives no benefit from tax on shows, except that collected in the few towns not incorporated; rel. to provs. of act of 1831, regulating shows. (3 *same* 1848: 14.)

AUDITOR'S REPORTS

The following reports, although treated as serials here, are not such in the proper sense of that word. Each report was made in compliance with legislative call. In general, the reports may be said to be uniform for each respective serial group. Occasionally there may be found a variation, as in the report of 1838, when the call required special reports on specie suspension and resumption. It was thought to be more useful to the student of this subject to assemble these reports, instead of scattering them throughout the non-serial group below. Few of the reports have an index or a recapitulatory table. Further to facilitate the use of the contents of these reports, it will be seen by reference to the

* No report was made in 1841, the banks having declined to make returns. Early in 1842 the House committee on banks and currency presented a report (app. 1, House jol. 1841/2) containing statements of the condition of the banks late in Dec. of 1841 or early in 1842.

BANKS (4th PERIOD), 1845-1851

Under Acts of Feb. 24, 1845, "to incorporate the State Bank of Ohio and other banking companies"; and of March 12, 1845, "to prohibit unauthorized banking and the circulation of unauthorized bank paper." Sec. 3 of the Act of Feb. 24, 1845, divided the counties of the state into 12 districts, and limited the number of banks and the amt. of banking capital in each district to from 5 to 11 banking companies and from $250,000 to $1,200,000 capital. Sec. 5 of the same Act named John W. Allen, Joseph Olds, Daniel Kilgore, Alexander Grimes and Gustavus Swan to be bank comrs. for one year from the date of the

Sec. 40 of the free banking act made it the duty of the auditor, treasurer and secy. of state as often as once a year to appoint some person to examine banks and to make a detailed rept. to the auditor. Only two such repts. are found in the printed documents. The first, the Reemelin rept. of 1854, is full and printed as submitted. The second prtd. rept., made by Claypool in 1859 is but a meager condensation made from notes, the original report having been lost from the auditor's files between the time of its submission and the call of the Senate for its transmittal to that body.

The Granville Socy. (exercising banking powers) and the Urbana Bank became defunct in Jan. 1842. At the time, paper of these institutions was in the hands of collectors of canal tolls. The question submitted by the auditor for determination is as to the responsibility for the funds until paid over to the state. The other points raised do not concern banks.

JEFFERSONVILLE OHIO CANAL CO.

See under Canals: Individual. This is the co. originally chartered by Indiana in 1805 to enable Aaron Burr and associates to construct a canal across the Ohio River from the Indiana side at Jeffersonville. A bank had been grafted on the charter and it was expected that this would produce the funds for financing the Burr expedition. The whole project collapsed in 1807.

ZANESVILLE CANAL AND MNFG. CO.

Chartered under Act of Feb. 24, 1816, to carry into effect the Act of Feb. 21, 1812, "to enable John McIntire and associates to erect a dam across the Muskingum River [at Zanesville]." The charter was accepted on Aug. 29, 1816. The dam was erected by the company in 1817. Some years later, in 1835, the State secured control of the property of the company, and erected a new dam on the site of the old one.

The joint select committee of six was represented on the part of the Senate by Wm. Henry Harrison and on the part of the House by Charles Hammond. The report was written by Hammond. It is sometimes referred to as "an appeal to the people" (cf. Gov. Brown, message Dec. 4, 1821 and "Charles Hammond," by Wm. Henry Smith; printed for the Chicago Historical Society in 1885, 72 pp.). In discussing the litigation agst. the Ohio Life Insurance and Trust Co. in his rept. of 1852/3, the then auditor of state, Wm. D. Morgan, refers to the Hammond rept. as "the ablest State paper probably to be found in our legislative records." Hammond was attorney for the state in the case of the Bank of the U. S. vs. Osborn. His argument, presented to the Supreme Court of the U. S., was printed in Cincinnati in 1823 (98 pp.) with the title "The state of the case and argument for the apellants (*sic*), in the case of the Bank of the U. S. vs. the auditor and treasurer of the State of Ohio and others, in the Supreme Court of the U. S."

Manhattan Bank, at Toledo

This bank was incorporated under the laws of the Territory of Michigan at a time when jurisdiction was claimed and exercised by that territory over territory in which the bank is situated. Before the bank went into operation the jurisdiction of the Territory of Michigan was withdrawn, and the disputed territory was transferred to the State of Ohio. By the act of incorporation a bonus was exacted for franchises under the charter. Subsequent to the transfer of the territory to the State

The inception of this Co. is described in Judge Burnett's "Notes on the Northwest." The paragraphs relating to the co. are reprinted in the ann. rept. of the Ohio comr. of r.rs. and telegraphs for 1881, pp. 124-125.

Miami Exporting Company

The first banking institution organized in Ohio. It was incorporated by Act of April 15, 1803, five months after the admission of Ohio into the Union. For text of charter see Chase. Stats. O., v. 3: 2019 passim. Although its charter granted banking privileges, the company did not engage in the banking business until March, 1807. The company suspended operations in 1822, was resuscitated in 1834, failed on Jan. 10, 1842 and the charter expired May 1, 1843.

BOARD OF PUBLIC WORKS

The first Board of Public Works was created by Act of March 4, 1836, to supersede the Board of Canal Comrs. It served for two years, when it was abolished by Act of March 16, 1838, reviving the Board of canal comrs. On March 5, 1839, an Act was passed abolishing the Board of canal comrs. and reviving the Board of public works. This Board is still in existence, acting under various amendatory laws. All the changes in membership of the board, as well as a collation of the reports made by the board, are set out under the heading Canals, the serial group.

BOUNDARY

It has not been the custom in earlier indexes of this series, to include material relating to boundary disputes. The following entries relate chiefly to the northern boundary of Ohio and specifically to the period known in local history as "The Toledo War." These entries have been assembled here because the controversy had some bearing on the location of the northern terminus of the Miami Canal. It will be noted that only material from the Ohio and U. S. documents is listed here. Each of the states of Michigan, Indiana, Pennsylvania and Virginia will have printed similar material.

1828. Debate in Committee of the Whole on the bill "for ascertaining the latitude of the Southern Bend, or extreme of Lake Mich., and of certain other points, for the purpose, thereafter, of fixing the true northern boundary lines of the states of O., Ind., and Ill." May 1, 1828. (U. S. Congressional Debates v. 1, pt. 2: 2550-2551.)

Indiana

1836. Andrew Porter, comr. on part of Ohio to act with comr. from Ind. resp. boundary line. (Govs. mess. (Lucas) Dec. 6, 1836: 17-18.)

1837. Communication from Gov. transmitting a preamble and res. of Ind. Legislature, on subject of boundary line betw. states of Ind. and Ohio. 2 pp. (Exec. docs. 1836/7 doc 49.)

COMMITTEE ON MEDICAL COLLEGES AND SOCIETIES

1852. April 16. Privileges of faculty and students of Ohio Wesleyan University and faculty and trustees of the Eclectic Medical Institute of Cincinnati in the Commercial Hospital of Cincinnati. (House jol. 1852 app. pp. 99-101.)

BUSINESS CONDITION

1817. Copy of resolutions passed in Cincinnati in 1817, prohibiting the purchase and use of certain articles of food and dress [i. e. imported liquors, fruits, nuts, wearing of black for mourning, etc.], and recommending rigid economy in every branch of expenditures. (14 A.R. bd. agric. 1859: 476.)
From "Farnsworth's Cincinnati Directory."

1818. Importation of foreign mnftred. articles and sales of public lands of U. S. cause of great scarcity of money in O. (Govs. mess. (Worthington) 1818.)

1819. Cause of pecuniary embarrassment is Bank of U. S. and too extensive use of credit by some of state banks. (*Same* (Brown) Dec. 1819.)

1823. Improved mercantile conditions; depreciated currency replaced by that of real value. (*Same* (Morrow) Dec. 1823.)

1842-1845. Stmt.: amt. of capital in trade, and money at interest as returned by co. auditors to state auditor. (Exec. docs. 1845/6 pt. 1: 78-80 (doc. 8).)

1872. Nov. 17. In view of extraordinary drought since 1870, and injury resulting therefrom to interests of those sections depending upon canals as channels of commerce, as well as loss inflicted on parties operating hydraulic power, it seems matter of prime importance to increase water supply at Portage and Licking Summits on Ohio canal, and in Mercer Co. reservoir on Miami and Erie canal; influence of canals in keeping down freight rates shown by fact that no sooner was canal from Cleveland to coal fields below crippled, than freight on coal advanced $2 per ton. (34 A.R. bd. public works 1872: 731.)
Paging from Collected docs.

1874. Influence of money panic; rigid economy needed in expenditures of state govt.; duty of legisl. to reduce taxes. (Govs. mess. (Allen) Jan. 1874.)

1878. Financial distress of country; need of economy. (*Same* (Bishop) Jan. 1878: 3-5.)

1880. Prosperity of country; large amt. of gold coming in on every steamer exchanged for produce; price of labor enhanced, renewed impetus given to industrial, mnfg. and mercantile pursuits. (*Same* (Bishop) Jan. 1880: 3-4.)

1884. Coal trade depression; see Mines and Mining, this date.

1890. "The present conditions of both the people and the public affairs of Ohio are in pleasing contrast with what they were four years ago"; Cincinnati and Hocking Valley riots; decline in values; taxation; corruption and crime in govt. of Cincinnati; liquor traffic; white caps; checking of these abuses. (Govs. mess. (Foraker) Jan. 1890: iii-v.)

*1 Period**

1825-1845

This was the period of construction. The canals were owned and managed by the state and the construction was carried on by agents of the state. The reader is referred to Morris. Internal Improvements in Ohio, 1825-1850 (Amer. Hist. Assn. Papers, v. 3, iii); Huntington and McClelland. Hist. of Ohio canals. Published by the Ohio Archaeological and Hist. Socy. 1905; and the construction of Ohio Canals, by G. W. Dial. Ohio Arch. and Hist. Socy., v. 13. Morris will be of service in a study of the motives underlying the

policy which controlled the financing of the public works. He says: "the distinctive feature of the Act of 1825 [March 4, 'To provide for the internal improvement of the state of Ohio by navigable canals'] was the fact that taxes were pledged for the payment of the interest due on stock sold, and to form a sinking fund for the redemption of the principal," and then proceeds to show how this was done. His stmt. that the most prominent member of the canal comn. of 1825 was at the same time Speaker of the House should read "the most prominent member of the canal fund comn. was at the same time Speaker of the Senate." The member referred to was Allen Trimble and the proceedings contesting his right to a seat in the Senate on the ground of his being already employed in a lucrative office by the state are printed on pp. 31-33 of the Senate jol. for 1825/6. An important rept. on the survey of the Miami and Erie Canal, the Ohio Canal, etc., was made by the Chief of Engrs. U. S. A. in 1896. (U. S. House doc. 278, 54 congr., 1 sess.) In this rept. is brought together much historical material, transportation and financial statistics scattered through the state documents.

It may be worth while to call the attention of the collector of Ohio documents to the various editions of these reports. A continuous file of these reports was in no case found in any one place, and it is believed that it was not generally known that several editions of most of these reports had been printed. It will be noted that in those years in which the Senate and the House each had its own printer, viz., 1848-1850, it is very likely that four editions were printed, viz., the Senate and the House, the document and the German editions.

A slight difficulty may arise in those instances where two departmental editions with varying paging exist. It was only after having made the index entries that the fact of there being several editions was discovered and it was then too late to collect all the entries to add the note identifying the edition.

1816. Feb. 6. Rept. from select committee on so much of President's mess. as relates to roads and canals. (Amer. State Papers. Misc. v. 2: 283-285.)
A federal committee. Advocating canals to open inland navigation along the Atlantic seacoast, turnpikes to form communication betw. the Atlantic and western rivers, and a canal around the Falls of the Ohio. The chrm. of the committee was Jeremiah Morrow, U. S. Senator from Ohio. Mr. Morrow was elected Gov. of Ohio in 1822 and held the office until 1826. It was during his administration that the first canal act was passed. This reference to the Morrow rept. is made in order to show the early interest in canals of an Ohioan destined to give conspicuous service in promoting canals in that state.

——. Dec. 11. Memorial of De Witt Clinton to Congress. (*Same* v. 2: 399-400.)
In his petition for a grant of land to aid in opening communication from the Hudson River to Lakes Erie and Champlain, Mr. Clinton says: "if we consider the extent and fertility of our territory northwest of the Ohio, the large proportion of it which yet remains unsold, the disposition and ability which our eastern fellow-citizens possess to purchase and to improve it, we cannot be insensible of the great pecuniary advantage which would result from opening to them a safe, easy and economical passage into that territory."

1817. Feb. 14. Rept. from the committee apptd. on so much of the President's mess. as relates to roads and canals. (*Same* v. 2: 424-425.)
The chrm. of the committee was Abner Lacock, U. S. Senator from Pennsylvania. Among the proposals of the committee were the promotion by the federal govt. of an inland or shore navigation from Boston to St. Mary's, Ga., a canal from the Hudson River to Lake Erie, the improvement of the navigation of the Ohio River, more particularly the Falls at Louisville, the improvement of the Atlantic rivers and the corresponding streams that empty into the Mississippi and the Ohio rivers. Mr. Lacock was at one time President of the Pennsylvania and Ohio Canal Co.

1818. May 26. Letter from Wm. H. Crawford, secy. of the Treasury of the U. S., enclosing House res. rel. to aid which may be rendered by Congress to states in road improvement and canal construction. (Sen. jol. 1818/9: 18-20; House jol. 1818/9: 18-19.)

——. Oct. 1. Govs. mess. (Worthington) in reply to letter of secy. of the treasury of U. S. rel. to roads and navigable rivers of the state which "as objects of public improvement require and deserve aid of the govt." (Sen. jol. 1818/9: 20-25; House jol. 1818/9: 20-24.)

——. Dec. 14. "If we would raise the character of our State by increasing industry and our resources, it seems necessary to improve the internal communication and open a cheaper way to market for the surplus produce of a large portion of our fertile country." (Govs. mess. (Brown) Dec. 1818.)
Repr. in Kilbourn. Public documents concerning the Ohio canals, p. 3, in both 1828 and 1832 editions.

This part of the rept. of the comrs. apptd. by act of March 12, 1845, to examine bks., etc., of canal fund comrs.

——. Jan. 6. Canal debt; reply of the auditor (Brough) to Sen. res. rel. to canal funds, stocks, sales, etc. 10 pp. (*Same* 1844/5 doc. 26.)

The res. calls for a stmt. of the amt. of net revenue applicable to payment of interest on debts of the canals during each year from 1839 to 1844 and source of the revenue and the amt. and date of stock sold, the principal or interest of which is payable at any place out of the state. The auditor reports that for the years 1839-1840 the whole of the state revenue was thrown into the "Ohio canal fund" and gives, in detail, the condition of the fund at the close of each of those years. For 1841-1844 he gives a table showing the whole amt. paid each year to the comrs. on acct. of interest and the source from which derived. He also submits a résumé of the issue and sale of stocks 1843-1844. In addition to the foregoing stmts. the rept. contains illuminating information rel. to the manner of the keeping of accts. of the state finances.

*2 Period**
1845-1855

All the canals had been completed in 1845. They were still entirely owned and managed by the state.

1846. Dec. 8. Extent of, and benefits derived from, public works of state. (Govs. mess. (Bartley) Dec. 1846: 11.)

——. Dec. 15. Employes; special rept. of the bd. of public works in answer to Sen. res. of inquiry of Dec. 10, whether, under the Act authorizing the bd. to fix the salaries of certain officers, the bd. has increased the salaries of any collectors of tolls, etc. (Sen. jol. 1846/7 app. pp. 288-293.)
The rept. is acc. by a stmt. showing the amts. paid each year, 1843-1846, at each of the offices of collectors of tolls.

1846-1847. Canal lands; lands sold at land offices at Lima and Perrysburg, from Sept. 1, 1846, to Dec. 1, 1847. (A.R. auditor 1846/7: 74-75.)

1847. Jan. 4. Canal debt; rept. of canal fund comr. (E. N. Sill) rel. to the amt. of the several classes of certificates issued under tax pledge of Act of Feb. 24, 1825, with stmt. of amts. of canal stock authorized to be issued by laws of state. 4 pp. (Exec. docs. 1846/7 pt. 1 doc. 37.)

——. Jan. 15. Tolls: rept. of the committee on the judiciary (Perkins) on Sen. bill 16 " to prevent certain corporations therein named from discriminating in regulating tolls." (Sen. jol. 1846/7: 210-211.)
The bill was intended to restrain all turnpike, canal and slackwater navigation cos., in which the state was a stockholder, from giving preference to any port or place to any other port or place by any regulation of tolls or revenue. The report is adverse.

1847. Jan. 18. Tolls; special rept. of bd. of public works rel. to tolls on salt mnftred. in and out of state. (Exec. docs. 1847/8 pt. 2: 378.)

——. Feb. 1. Rept. of the standing committee on public works and public lands (Ford) on the expediency of abandoning altogether, or surrendering to counties in which they lie, such of public works of state as are so unproductive as not to pay expenses of keeping same up. (Sen. jol. 1846/7 app. pp. 309-320.)

——. Dec. 10. Claims; special rept. of the bd. of public works in reference to adjusting claims agst. state. (Exec. docs. 1847/8 pt. 1: 21-22 (doc. 4).)

——. Dec. 11. Canal lands; law of last session reducing price and securing lands to actual settlers, beneficial to interests of state. (A.R. auditor 1846/7: 9.)

——. Dec. 11. Claims; "at length whole of claims agst. state for construction of public works has been paid and all the public improvements which required expenditure of large sums from the treasury, have been completed." (*Same* 1846/7: 48.)

——. Dec. 11. Water rents; no separate accts. of water rents upon the canals and Muskingum Improvement were kept prior to 1846; efforts of bd. of public works to effect returns. (*Same* 1846/7: 43.)

1848. Jan. 3. Canal lands; special rept. of the auditor of state (Woods) rel. to the quality [sic i. e. quantity] and value of canal lands. (Exec. docs. 1847/8 pt. 2: 94-99 (doc. 8).)

——. Jan. 14. Tolls; memorial of A. B. Walker and others, mnftrers. of Athens Co., asking that the present policy regulating canal tolls on salt [on the Ohio Canal] be continued. (Sen. jol. 1847/8 app. pp. 87-90.)
The memorial recites the increasing investment in salt mnfre. in the Hocking Valley, the efforts made to excite prejudice agst. Ohio salt in favor of N. Y. salt, and urges the propriety of the bd. of public works so regulating its policy as to discriminate in favor of Ohio salt. Refers also to legislative encouragement in N. Y. to salt exports.

3 Period *

1855-1861

Under authority conferred by sec. 5 of the Act of March 6, 1845, regulating the public works, the entire keeping in repair of the public works of the state was let on contract for a period of 5 years from Nov. 16, 1855. In the special rept. of the Chief of Engrs., U. S. A., of 1896, on the Ohio canals (House doc. 278, 54 cong., 1 sess.), the use of the year 1855 as a period of division in Ohio's canal development is justified in these words (p. 73): "The above date, 1855, is adopted in making an analysis of the history of the Ohio canals, because it marks the period of change in public sentiment in regard to these works. It was between 1850 and 1860 that r.r. construction in the state of Ohio began to assume important proportions. More miles of railroad were built in these ten years than in any other census decade in the history of the State. The State of New York met similar movement by enlarging her canals to more than double their former capacity. The State of Ohio, on the contrary, apparently losing faith in the capacity of her canals to compete with the new method of carriage coming into vogue, adopted the most effective course possible to destroy their efficiency. She leased them to private parties through a period of seventeen years, beginning with 1861."

1855. Dec. 31. Revenue from the public works; on letting of contracts, cos. to whom let; proposal for separate apprns. for each contract division. (A.R. auditor 1854/5: 16.)

Under Lessees
1861-1878

On June 2, 1861, the public works of Ohio were leased, under the Act of May 8, 1861, for $20,075 per annum. This lease continued in force until Dec. 1, 1877, at which time the lessees abandoned the public works. By appointment of the Superior Court of Montgomery Co. they were placed in the hands of a receiver until May 15, 1878, at which time the State Board of Public Works again took possession of them. Under the law authorizing the lease of the public works, C. S. Hamilton was apptd. by the Governor, Paul Weatherby by the bd. of public works and John G. Isham by the lessees to appraise the personal property of the State which the lessees were required by said act to purchase. Of this lease the bd. of public works (Ann. rept. 1903: 54) remarks: "The most important event in the whole history of the State's water ways and one which has affected their subsequent efficiency more than any other one thing, was the leasing of the public works to a private corporation which went into effect when the canals were in a prosperous condition and which marked the beginning of their downfall."

1861. Dec. 23. Public works leased under act of May 8; stmt. of value of personal property appraised and transferred to lessees on each canal. (23 A.R. bd. public works 1861: 491-492.)

Canal Fund

The Board of comrs. of the canal fund was created by Act of Feb. 4, 1825. The board consisted of three members appointed by the Gov. The Act is an act to provide for the internal improvement of the State by navigable canals, and, in several particulars, is a compact between the State and such persons as should loan money to the state for the works contemplated to be constructed. The power delegated to the board was intended to be sufficient to inspire confidence abroad, so that the state might obtain funds to construct two navigable canals, one from or near the mouth of the Scioto to Lake Erie and one from Cincinnati to Dayton. A fund, denominated the canal fund, was constituted to consist of all such apprns., grants and donations as might be made by the Legislature, and by individuals, and by moneys raised by the sale of state stocks and by taxes specially pledged for the payment of the interest upon such stocks. Provision was also made to create a sinking fund for the ultimate extinguishment of the debt. The bd. of canal fund comrs. were empowered to manage the canal fund. Authority was given them to borrow money on the credit of the state. In 1825 a loan of $400,000 was authorized, and loans of $600,000 in each succeeding year during the progress of the work. Transferable certificates of stock were issued redeemable between 1850 and 1875 at such times as the comrs. should determine. Subsequent acts authorized additional loans and by act of March 13, 1843, a loan of a million and a half was authorized. The sums borrowed were to be paid to the canal comrs. The canal fund was raised, managed and expended in the construction of the public works, no part being appropriated for paying either the interest or principal of the public debt. The sinking fund composed of the net proceeds of tolls, fines and water rents was devoted to that purpose. When the public works had been completed no so such thing as the canal fund remained. The sinking fund, produced by the revenues of the public works, became the subject of all the duties with which the canal fund comrs. were in fact charged. By Act of March 10, 1843, the board of canal fund comrs. was reorganized to consist of one acting comr., with the auditor and

treasurer of state as advisory comrs. The powers of the board of canal fund comrs. under this act were threefold, viz., to issue new bonds, in place of old ones, in cases of transfer, loss or mutilation, to pay the accruing interest and provide for payment of the principal debt; and to audit the reports of expenditure by the several comrs. constituting the board of public works. The first two powers are such as pertain to comrs. charged with the management of the sinking fund, and accordingly sec. 15 of the Act of 1843 declares that the comrs. of the canal fund shall act as comrs. of the sinking fund. By an Act of March 2, 1846, the Legislature took away from the canal fund comrs. the third power, viz., to audit the expenditures of the comrs. of public works, restoring it to the auditor of state. The board of canal fund comrs. ceased to exist upon the provision in the constitution of 1851 for a sinking fund commission becoming effective by Act of April 19, 1852. See Debt: Public (State).

Under Act of March 10, 1843, "to reorganize the Board of canal fund comrs., and to provide for an investigation into the affairs of said board." It was made the duty of the board apptd. under this act to make a full examination of all transactions of any former member or members of the board. For that purpose the new board was clothed with plenary powers and it was required to make a report of the examination to the Gov. who was invested with power to institute suit in any court of competent jurisdiction of the state. No such investigation was made and on March 12, 1845, the Legislature created the Whittlesey bd., a special examining bd. which reported on Dec. 24, 1845.

Examining Bodies

This group has been assembled for the purpose of keeping together a class of material which, when bulked in this way, is very important, but which, if scattered is weakened and easily overlooked. Some of the reports are so purely financial that it would have been quite natural to have classed them below with Receipts, etc. On the other hand, they are of such a purely financial character probably because the canal funds were at the time in extraordinary straits, and, on the whole, it was believed that greater usefulness would be served by grouping this material and referring to it from allied subjects.

The comrs. were apptd. under jt. res. of March 14, 1836. Originally they were Samuel Medary and Samuel Creswell. Later Wm. B. Van Hook was added, and Mr. Medary resigned, Elijah Hayward being apptd. in his place. Mr. Creswell having failed to appear at any meetings, Dr. M. Z. Kreider was apptd. in his place, and this remained the complexion of the board during the further period of its proceedings. The comrs. refer to an incomplete rept. made to the Gov. on Oct. 31, preceding. At that time the Legislature was not in session, which may account for the fact that no separate copy of the earlier rept. was found. It is included in the journal of proceedings of the committee transmitted on April 1, 1837, and may be found on pp. 25-26 of that document. The comrs. rept. that, owing to the confused state of the accts. to be reported on no satisfactory return could be made by them, and they submit the text of five resolutions proposed to be introduced by the Gen. Assem. calling on the canal comrs., comrs. of the canal fund, the auditor, treasurer and secy. of state for certain information which will enable the comrs. to make a full rept.

Repts. had been made by the comrs. before, see above, under date of Dec. 7, 1836. The rept. dated April 1, 1837, transmits the journal, proceedings, etc., of the comrs. from May 18 to Dec. 7, 1836, called for by the jt. res. of Jan. 6, 1837. The original ms. of this journal is in the Western Reserve Hist. Socy., Cleveland.

The rept. is acc. by stmts.

B. Correspondence with the General Land Office rel. to grant of lands for the Miami Canal Extension and with the Manhattan Co. of N. Y., pp. 33-36.

C. Rept. from the state treasurer showing amts. from all sources recd. to credit of Ohio canals, 1827 up to Nov. 15, 1835, pp. 36-44.

Arranged chronologically, acc. by classified table showing aggregate amts. recd. each year from canal tax, lots, rents and subscriptions, apprns., tolls, Ohio lands, sec. no. 16, Virginia Military Lands, U. S. Military Lands, salt lands, Ohio University, fines and Conn. Western Reserve lands.

D. Stmt. of loans contracted each year, 1825-1829, by the comrs. of the canal fund, pp. 45-49.

E. Tabular stmt. showing amt. assessed and recd. in each county in state for canal purposes in each year 1826-1835, facing p. 46.

F. Statistical stmt. of all drafts, checks or warrants issued by the auditor from 1825 to 1835 chargeable to the comrs. of the canal fund, facing p. 48.

G. Stmt. of chief clerk of auditor's office that no repts. of the canal and canal fund comrs. under sec. 4 of Act of Jan. 30, 1837, can be found in auditor's office.

1838. Feb. 20. Bd. of public works; rept. of the committee on canals and other public works (Chambers) in relation to the conduct of the bd. of public works, with acc. docs. 64 pp. (House jol. 1837/8 app. 1.)

It will be noted, by referring forward to the serial group under Canals, that there were several sudden changes in the continuity of the bd. of canal comrs. and the bd. of public works at about the time of this report. Many petitions had been sent to the State Legislature praying for the reorganization of one or the other of these boards and were referred to the Chambers' committee with instructions to inquire into their cause. The report would seem to imply that the great objects of internal improvement, having been realized to a substantial extent, were being used for political purposes. The narrative portion of the report is especially directed to the apptmt. of collectors of tolls and to the Muskingum Improvement above and below Zanesville. The docs. acc. the rept. comprise depositions.

1842. Dec. 10. Bd. of public works; rept. of the special committee apptd. to examine the accts. of the several members of the bd. of public works. 67 pp. (Exec. docs. 1842/3 doc. 12.)

The committee was composed of Jacob Medary, Wm. Trevitt and Heman A. Moore. The committee confined its investigations to the years 1839-1841 and specifically to the accts. of R. Dickinson, Leander Ransom and Timothy G. Bates.

1843. Dec. 20. See above, Canals, this date.

1844. Feb. 28. Bd. of public works; rept. of the standing committee on retrenchment (Disney) under instruction to examine the accts. and management of the bd. of public works. (Sen. jol. 1843/4: 597-614.)

(Exec. docs. 1845/6 pt. 1: 112-113 (doc. 13).)

The defaulting members were Leander Ransom and Wm. C. Spencer. The comrs. were Roswell Marsh, Simeon Nash and Demas Adams, Jr. A further rept. was made Dec. 26, 1845; see below.

——. Dec. 24. Canal fund comn.; rept. of the bd. of comrs. apptd. by Act of March 12, 1845, to examine the books, accts. and proceedings of the bd. of canal fund comrs. (*Same* 1845/6 pt. 2: 577-820 (doc. 2).)

The comrs. were Elisha Whittlesey, C. H. Wing and Hosmer Curtis. This is the examining body apptd. to rept. on the accts. of the canal comrs. The next previous body was the Hayward committee, apptd. under Act of March 14, 1836. Its final transactions were reported on April 1, 1837; see above, that date.

The present body is the first whose report contains a thorough review of the system of accounting of the canal fund comrs., from the beginning. In addition to a description of the books kept by the various comrs. since 1825, their relations with the transfer office of state stock in N. Y. is reported on (pp. 589-594), as well as the manner of making loans and creating the funded debt of the State (pp. 594-596), the negotiations betw. the North American Trust and Banking Co., N. Y., and the canal fund comrs. (pp. 596-603), the act of March 7, 1842, reviving and canceling stock (pp. 603-605), relation betw. the canal fund and the school fund (pp. 605-606). There is also a full report (pp. 606-628) on the loans of the state's credit to r.r. and turnpike and canal cos. under Act of March 24, 1837. Following the narrative portion of the rept. are Exhibits A-M, and verbatim repts. of various individuals who have been associated with the canal fund.

——. Dec. 26. Bd. of public works; rept. of the comrs. apptd. under the Act of March 6, 1845, "to appoint comrs. to examine the books, accts. and proceedings of the bd. of public works, and for other purposes." (*Same* 1845/6 pt. 2: 1-574 (doc. 1).)

The comrs. were Roswell Marsh, Simeon Nash and Demas Adams, Jr. The investigations of this bd. were confined to: 1. The unrestricted check accts. of members of the bd. of public works and the canal comrs. who have been in office since April 1, 1836. 2. Such of the canal collectors' offices as their movements brought within their reach, 3. Inquiries into the system in use for making repairs upon the public works. 4. The national road since Sept. 1842. 5. The Miami Canal Extension north of Piqua, to its junction with the Wabash and Erie Canal, incl., the Sidney Feeder, the Loramie and Mercer Reservoirs.

The conclusion of this rept. was presented on Jan. 20, 1847.

This is the rept. entered in Bowker as "Report of investigating committee on public works, on rascality."

1847. Jan. 20. Bd. of public works; rept. of the bd. of comrs. apptd. under Act of March 6, 1845, "to appt. comrs. to examine the books, accts. and proceedings of the bd. of public works. (*Same* 1846/7 pt. 2: 1-428 (doc. 1).)

In continuation of the rept. of Dec. 26, 1845. The comrs. were the same as in the earlier rept. The rept. contains: 1. The acct. of the bd's. final investigations of the National Road since Sept. 1842. 2. Rept. on the Wabash and Erie Canal. 3. Rept. on the Western and Maumee Road. 4. Rept. on the Muskingum Improvement.

1849. n. d. Rept. of the select committee apptd. to examine the accts. and returns of the collectors upon the state canals, etc. (Sen. jol. 1848/9 app. pp. 315-318.)

1859. May 26. Repts. of the examiner of canal offices (John Claypool). (A.R. auditor 1858/9: 37-39.)

In Sept., 1858, the auditor apptd. Claypool an inspector and examiner of canal offices under sec. 16 of the Act of April 12, 1858, "to further provide for the better regulation of the receipt and disbursement and safe-keeping of the public revenue." Mr. Claypool reported water rents delinquent on Nov. 1, 1858, to an amt. of nearly $100,000, which the auditor in his rept. of 1858/9 deems sufficiently large to warrant legislative action.

——. Dec. 28. Rept. of the examiner of canal offices (M. G. Mitchell). (*Same* 1858/9: 39-40.)

Judge Mitchell was apptd. on June 6, 1859, to succeed J. Claypool whose rept. was dated May 26, 1859.

Canal, Wabash and Erie Canal, Walhonding Canal, Canal Dam and Lock at Zanesville, Improvement of Muskingum River from Zanesville to Marietta, Western Reserve and Maumee Road; names of canals and turnpike cos. to which state has subscribed stock, amt. of stock subscribed and and amt. paid, amt. of credit loaned by state to r.rs. 10 pp. (*Same* 1838/9 pt. 2 doc. 61.)

1839-1840. Stmt. of estimated amt. necessary for completion of public works. (A.R. auditor 1838/9 (p. 10)—*same* 1839/40.)

1839-1842. Estimated cost of each of public works of state in progress during year; payments made on each, and amts. required to complete same. (4 A.R. bd. public works 1840 (p. 21)—6 *same* 1842.)

1839/40-1843/4. Tabulation showing the transactions of the dept. of public works in auditor's office for the year ended Nov. 15. (A.R. auditor 1839/40 (pp. 19-26)—*same* 1843/4.)

The Act of March 23, 1840, "to regulate the receipts and disbursement of the canal fund," established in the office of the auditor of state a fiscal department of public works, provided for the method of keeping the accts. and required that an ann. rept. of the same be made by the auditor.

The tabulation consists of a stmt. of the gross amt. paid into the state treasury by the fund comrs. and of the amt. paid from the treasury by the disbursing agt. It shows the receipts, disbursements and balance each year on acct. of the Muskingum Improvement, the Miami Extension Canal, Wabash and Erie Canal, Western Reserve and Maumee Road, Ohio Canal, Walhonding Canal, Miami Canal, Hocking Valley Canal, Warren Co. Canal, turnpike cos., Cincinnati and Whitewater Canal (omitted for 1841/2 and 1843/4), Milan Canal Co. (omitted 1840/1 and 1842/3-1843/4), expense acct. and interest acct. From 1840/1-1842/3 a stmt. for the Urbana, Troy and Greenville Road. From 1842/3-1843/4 there are stmts. for the Wabash and Erie Canal lands and the Miami Extension Canal lands.

The stmt. for 1839/40 covers only the period from April 1 to Nov. 15, 1840, or from the time of the going into effect of the "Act to regulate the receipts and disbursements of the canal fund.

The table is continued in practically the same form under dates of 1844/5-1852/3; see below.

The predecessor of this table is entered above, under dates of 1831/2-1838/9, which see.

1840. Feb. 20. Special rept. of bd. of public works rel. to necessary expenditures on public works, loss in case of suspension of operations, amt. due contractors, etc. 7 pp. (Exec. docs. 1839/40 pt. 2 doc. 90.)

This table succeeds a similar stmt. entered above, under dates of 1839/40-1843/4, which see.

From 1844 to 1846 the matter of this table resembles that of its predecessor as it stood at the time of the change. From 1847 to 1851 the table shows the receipts and expenditures of each canal, of the bd. of public works, of the fund comrs. and the interest on the domestic debt. In 1852 the bd. of public works, the fund comrs. and the domestic debt interest stmt. is omitted and the following are added: Western Reserve and Maumee Road, Erie Canal land fund, Miami Canal land fund and the surplus revenue fund. In 1853 Ohio canal lands and the National Road Fund are added.

1845-1853. Table: gross receipts and expenditures on public works since their completion; estimates for same year; deficit in interest made up by taxation. (Govs. mess. (Medill) 1854: 9.)

1846. Jan. 24. Special rept. of the bd. of public works as to whole cost of construction of each canal belonging to state, from time of commencement until completed and rendered navigable. (Exec. docs. 1845/6 pt. 1: 556-558 (doc. 36).)

——. Feb. 3. Special rept. of the Ohio canal fund comrs. rel. to [amt. of outstanding debt for] repairs [and for construction] on Ohio canals. (*Same* 1845/6 pt. 1: 641-642 (doc. 42).)

1846-1861. Table: amt. of gross receipts and expenditures on each canal for 16 years. (23 A.R. bd. public works 1861: 498.)

Paging from Collected docs.

The receipts are gross receipts less tolls refunded; the expenditures are itemized by expenses of collection, construction superintendence and repairs, salaries and all other expenditures.

This is a tabular recapitulation of similar preceding tables for each canal. These latter are entered under the names of the individual canals, which see below. A duplicate of this table, closing with the year 1860, is included in the Special rept. of the bd. of public works entered below, under date of March 28, 1861.

——. Table: ann. amt. of receipts and expenditures on all canals for past 16 years; also value of taxable property in state in each year. (23 *same* 1861: 499.)

CANALS: INDIVIDUAL

The following tabulation is a collation of the administrative divisions of the public works of Ohio, as they existed from time to time. Such a collation, showing as it does the changes in the divisions and the rotation in the supervising officials may, it is believed, be suggestive to the special student of Ohio's canal and road history in a variety of ways. Before this division system had been inaugurated the bd. of public works reported separately on each canal. For these reports, see below, under the names of individual canals.

1 series

A

Eastern Division

This division comprised the Ohio Canal, the Muskingum Improvement, the Hocking Canal and the Walhonding Canal. The following year the divisions were re-arranged and thereafter from time to time as shown in the following collation.

serial

1818. Ann. rept. of the Jeffersonville Ohio Canal Co., dated Dec. 13, 1818, and signed by I. Bigelow.

In Documents as follows:
1818 in Sen. jol. 1818/9: 141-144.
1818 in House jol. 1818/9: 132-136.

This rept. was made under the third Indiana charter granted to this company. In 1805 a charter had been granted to Aaron Burr for cutting a canal on the Indiana side of the Ohio River. A bank had been grafted on the Burr charter, which, it was expected, was to produce the funds for financing his expedition. This latter project collapsed in 1807. The second charter was granted by Indiana this time to the Jeffersonville Ohio Canal Co. in Jan., 1817, and the third in Jan. of the following year.

Pennsylvania and Ohio Canal (Private canal; abandoned)
serial

The Pennsylvania and Ohio Canal Co. was chartered by Ohio on Jan. 10, 1827, the charter being subsequently renewed on Feb. 20, 1835, and March 2, 1836, resp. The canal connected the Ohio Canal, at Akron, with the Pennsylvania canal system extending northward from Pittsburg, thus completing a direct line of communication from Cleveland to Philadelphia. By Act of March 2, 1836, the State acquired the right to buy out the company any time within 50 years on certain conditions. By Act of March 24, 1837, the State

subscribed one-third of the capital stock of the co. The canal was completed in 1838. In 1852 the Mahoning R.R. paralleled the canal. The stockholders of the r.r. held most of the canal stock. The r.r. bought the state's interest in the canal, the act of sale stipulating that the canal be kept in a navigable condition. The r.r. co. put up the rates of toll so high that boats ceased to run and after some litigation the banks were cut and the work abandoned.

Sandy and Beaver Canal (Private; abandoned)

Originally chartered by Ohio on Jan. 11, 1828; charter renewed March 3, 1834. The canal extended from Bolivar on the Ohio Canal to Smith's Ferry, 40 miles below Pittsburg on the Ohio River. By the charter of 1834, the State gave to the company the privilege of collecting for 7 years from that date, the tolls due the State on all freight passing over the state canal, providing such freight was then transported a distance of 20 miles on the Sandy and Beaver Canal. The building of the Chicago, Pittsburg and Fort Wayne R. R., parallel to the canal, caused it to be abandoned in 1852.

1826. Dec. 19. On examinations made for purpose of ascertaining practicability of making a canal by way of Sandy Creek and Little Beaver to connect Ohio River at Pittsburg with the Ohio Canal. (A.R. canal comrs. 1826: 126.)

OHIO

serial

In addition to the series collated below, the report of the meteorologist of the Agricultural Experiment Station and the Special Bulletins of the U. S. Signal Office should be noted. The former has been made since 1882, and is to be found in the annual reports of the Experiment Station. It is compiled from the monthly reports of the Ohio Meteorological Bureau and the daily observations taken at the station. It is not separately published. In recent years, i. e., from 1892 to date, the meteorologist's report is presented in the form of an "Annual Meteorological Summary," containing both current and cumulative tables. These tables have been analyzed and appear below, under their appropriate headings, in the non-serial group. The Special Bulletin of the U. S. Signal Office appears in the monthly report of the Ohio Meteorological Bureau from 1885 to 1895; its first appearance being in the March, 1895, number, pp. 6-7.

3 series

By Act of April 13, 1892, the Ohio Meteorological Bureau was transferred to the board of agriculture of the state. The scope of the work was enlarged from the simple collection of weather statistics and their publication in annual and monthly reports, to the collection of crop statistics and meteorological data, and the wider dissemination of weather forecasts, flood and frost warnings, etc. The director was also authorized to issue weather crop bulletins under the direction of the state board of agriculture, and a monthly weather and crop review. At the time of the transfer the service had in operation 69 observation stations and 60 display stations.

MONTHLY REPORT
1882-1892

These repts. comprise monthly station repts., daily and monthly rainfall, temperature, wind movement, snowfall, precipitation, etc., tables of comparison for each mo. from Jan. to Oct. beginning in 1883, and from Nov. to Dec. beginning in 1882. Beginning with 1886, the special bulletins issued by the U. S. Signal Office are included. From Aug., 1888, to Aug., 1889, a monthly meteorological rept. of Columbus, with a cumulative stmt. of maximum, minimum, and mean temperature for the mo. and for each year from 1878, as well as the total precipitation in each mo. from 1878.

Separate entries have been made under non-serial groups for all special subjects reported on, as well as for historical tables.

WEEKLY CROP BULLETINS

These bulletins were probably issued from the beginning of the establishment of the bureau. The only approximately complete file which has survived is that now belonging to the Ohio State University. The bulletins were issued for immediate distribution and were not usually preserved. For some time they appear to have been issued in two forms, viz., one small slip containing crop and weather conditions and a large two-page slip containing crop statements for each county. For the seasons of 1893 and 1894 these bulletins were printed in the repts. of the Ohio Weather and Crop Service.

In Documents as follows:

1893

Week ending April 1-29 in Rept. Weather and Crop Service April 1893: 38-46.
Week ending May 6-27 in Rept. Weather and Crop Service May 1893: 6-13.
Week ending June 3-24 in Rept. Weather and Crop Service June 1893: 6-13.
Week ending July 1-29 in Rept. Weather and Crop Service July 1893: 6-14.
Week ending Aug. 5-26 in Rept. Weather and Crop Service Aug. 1893: 8-15.
Week ending Sept. 2-30 in Rept. Weather and Crop Service Sept. 1893: 6-15.

The following Bulletins appear twice:

Week ending June 3 in Rept. Weather and Crop Service May 1893: 14-15.
Week ending June 3 in Rept. Weather and Crop Service June 1893: 6-7.
Week ending July 1 in Rept. Weather and Crop Service June 1893: 14-15.

These repts. generally comprise a monthly summary of repts. by observers of the Ohio Weather and Crop Service (a yearly summary being given in each Jan. rept.); a chart showing average temperature (in degrees) for the month; do. total precipitation (in inches) for the month; remarks on the temperature, precipitation, relative humidity, and the weather forecasts; names of observers reporting to the service, with names of stations, etc.; rept. of verification of weather signals; list of rain-gauge stations; frost warnings, snowfall; tabular stmts. relative to the monthly and daily precipitation for each station, and each section of state, and relative to the mean and average temperatures; and table of comparison for the month from 1883 (Nov. and Dec. from 1882). Beginning with April, 1893 (p. 6) "Weather notes" by T. Mikesell for Station No. 6A, Wauseon, are given almost every month. Separate entries have been made for other subjects not regularly reported on and they are listed under the various "non-serial" groups.

Sinking Fund Commission

The commission was provided for in art. 8, sec. 6, of the state constitution of 1851. The auditor, secretary of state and the attorney-general constituted the commission. The constitutional provision became effective under act of April 19, 1852, amended by acts of March 14, 1853, May 1, 1854, and April 12, 1858. The sinking fund commission continued the powers and duties of the later board of canal fund commissioners; see Canals.

* Title page reads: "for the year 1859," but rept. is the regular July semi-ann. rept., submitted July 20, 1859.

† Title page reads: "Semi-ann. rept. for the year." "The last semi-ann. rept. of the comrs. was made to July 20, 1859, and following the division of the year heretofore adopted by the bd., the next rept. would have been on Jan. 20, 1860. But in consideration of the fact that the fiscal year of the state, established by law, ends on Nov. 15, as also that in Jan. and July the revenues are in the process of collection and the comparison of accts. betw. this and other offices consequently difficult, the comrs. deemed it advisable to change from the 20th of Jan. and of July, to the 15th of May and Nov. This rept. therefore embraces the transactions of the comrs. from July 20, 1859, to May 15, 1860, and the next rept. will include those from this date until Nov. 15, next." (Semi-ann. rept. 1860.)

——. Necessary legislation rel. to sinking fund; condition of state debt. (Govs. mess. (Allen) Dec. 1874: 4.)

1875. Inability of auditor to comply with sec. 4, act of March 30, to re-transfer at least $200,000 from asylum fund to sinking fund on or before Jan. 1, 1876; demands agst. asylum fund. (A.R. auditor 1874/5: 37-38.)

——. Accumulation in sinking fund until 1881. (*Same* 1874/5: 38.)

1876. Requirements of sinking fund; levy entirely adequate; even with present reduced levy, surplus will amount to about $1,000,000 in 1881 when rate must be increased. (*Same* 1875/6: 6-7.)

1877. Recommendations of comrs. of sinking fund emphasized, viz.: reapprn. of unexpended balance of principal of funded debt; provision for repayment to sinking fund of sum due for amts. transferred to general revenue and asylum funds; insufficiency of rate of levy for sinking fund (5/10 of a mill) to meet requirements of sec. 7, art. 8 of constitution; investment of accumulation of cash in U. S. consols. (*Same* 1876/7: 52-53.)

1878. The sinking fund; estimated accumulations for 1878/9; use of this fund to pay demands upon reserve and asylum fund; folly of neglecting to make adequate provision for current expenses; "faith of the state" not kept; investment in U. S. bonds recommended. (*Same* 1877/8: 34.)

——. Comments on sinking fund accumulations and how to use them. (*Same* 1877/8: 34.)

——. Investment of surplus sinking fund in U. S. bonds advised. (*Same* 1877/8: 34.)

1879. Sinking fund; no apprn. made for its reduction since 1875; violation of law; suggested that exact sum ($2,282,425) required to make omission good, be appropriated by next legisl. (*Same* 1878/9: 31.)

1880. On condition of sinking fund; outstanding loans; state loan. (*Same* 1879/80: 30-31.)

1882-1903. Stmt. of estimates of apprns. necessary to be made from sinking fund for fiscal year. (*Same* 1881/2 (p. 42)—*same* 1902/3.)

State Commissioner of Common Schools

The office of superintendent of common schools was created by Act of March 27, 1837. By Act of March 23, 1840, the office was abolished and its duties were transferred to the secretary of state. The office was re-established by Act of March 14, 1853, which provided for the reorganization, supervision and maintenance of common schools, and the election of a state commissioner of schools.

The Act of March 14, 1853, which transferred the duties of the supt. of common schools from the secy. of state to the state comr. of schools, made no provision for the discharge of duties of that office in the interim between the transfer and the election and qualification of the state comr. of common schools. Nor did the Act provide for aid in placing construction on difficult and ambiguous parts of the law which went into effect immediately. During the interval between the passage of the Act and the election of the comr., the secy. of state, in reply to numerous requests, gave information upon questions arising under the new law, this service being unofficial and gratuitous. Upon a request of the Senate he transmitted a rept. on March 18, 1854, of such information as had been communicated to his office from county auditors, especially such reports as were supposed to be an expression for or against the new law. This rept. may be found below, among the non-serials, under date of March 18, 1854.

It may be worth while to point out to the collector that five editions of this report are recorded here.

School Fund

See also Land. National Domain; Land. School Lands; also History of school tax legislation in Ohio, by E. A. Jones. (Ohio State Teachers' Assn. School Revenue Commission Report, 1907.)

The Act establishing the common school fund was passed Jan. 30, 1827. Anterior to the passage of this act schools were supported only by local taxation (see acts Jan. 22, 1821, Feb. 5, 1825). The act of 1821 was ineffective in that it was not imperative either as to school organization or as to the levy of the tax, but it did constitute an epoch in this particular, that it established the principle of taxation for the support of schools. The act of 1825 made the levy of a tax of ½ mill compulsory throughout the state.

The Act of 1830 provided that the avails of sales of school lands be an irreducible fund to be passed by the auditor to the credit of the district within which the lands sold were located. The proceeds of this fund were to be used only for the support of common schools within the district containing the original land. Returns relative to revenues for school purposes first appear in the auditor's report in 1815. The heading "school funds" is first used in 1834. From 1834 to 1835 these funds consisted of the Va. Military, the U. S. Military, the Common School, School Sec. 16, Conn. Western Reserve and Athens University funds. From 1836 to 1840 the same, adding School Sec. 29. From 1841 to 1843, the same, Ohio University fund added. From 1844 to 1851, the same, Moravian fund added. From 1852 to 1904 there is a Common School Fund, and an Irreducible Debt. The distinction running through all these funds of reducible and irreducible is peculiar. The revenue derived from rents and from interest paid by the canal fund was regarded as subject to distribution and was paid over to the counties each year. The irreducible debt arose from payment into the state treasury of the proceeds of sales of land donated by the general govt. for the support of schools, etc. This debt is not only irreducible in its character, but, owing to the constant sales of school lands, necessarily increases from year to year. In lieu of the repayment of the principal, the State is bound to pay interest thereon to the various counties in proportion to their ownership of the lands actually sold and accounted for. The principal is not classed as a state debt but the interest of 6%, payable forever, is.

——. Rept. of comrs. apptd. by Gov. to visit the Medical College of Ohio at Cincinnati; also to enquire into conditions, govt. and arrangements of Commercial Hospital and Lunatic Asylum. (Sen. jol. 1833/4: 217-238.)

Signed by John W. Willey, M. Z. Kreider, J. M. Edmiston. Dr. Thompson declined signing.

——. Same, separate.

Not found. Probably none printed separately. A separate edition was ordered at the time of presentation (see Sen. jol. 1833/4, p. 238). Later, on Feb. 7, 1834, a second edition of 2000 copies was ordered by Sen. res. if concurred in by the House. The latter body laid the res. on the table.

By an error in binding, the signature comprising pages 417-424 is sometimes found substituted for pp. 217-224 which include the first part of the comrs.' rept. Pages 417-424 again appear in their proper place.

1834. Rept. of select committee (Hitchcock) on repts. of majority and minority apptd. to visit Medical College of Ohio. (*Same* 1833/4: 542-552.)

Charter

1882. Charter of the Medical College of Ohio, and amdmts. thereof. Collated by M. W. Myers, librn. of the Cincinnati Law Library. Cincinnati, 1882. 20 pp.

Miami University, Oxford

Incorporated Feb. 17, 1809.

School opened as a preparatory school in 1816 and as a college in 1824. The institution had its origin in the township reserved in the Symmes, or Miami, Purchase for an academy or seminary of learning; for note of which see under Land. Land Grants. College Townships.

The Quarterly Publication of the Ohio Hist. and Philos. Socy., v. 4, no. 2: 45-79 (April-June, 1909) contains "A Speech for the General Assem. of the State of Ohio, on the bill to remove the site of Miami University from Oxford," written by James McBride. The speech was prepared so that Mr. McBride, then sitting in the House of Representatives, might be in readiness should the friends of Cincinnati College revive the question of removing Miami University. This they did not do and the speech was not delivered. This text is printed from the original in the possession of the Society, and contains, the editor says, "the best account of the Miami College Lands that is extant." (p. 48.)

1809-1904

Incorporated Feb. 17, 1809, pursuant to certain provisions in the original grant of land by Congress to J. C. Symmes, May 15, 1788. The first trustees were appointed in 1809. It was not till 1816 that the first school was opened, and not until 1824 that any attempt was made to establish a collegiate department. The first class of Miami University was graduated in 1826. The Act of Feb. 1, 1814, "An Act to amend the several acts establishing the Miami University required the trustees to make reports to the state legislature.

Ohio University, Athens

serial

The existence of Ohio University was provided for by the purchase made, in 1787, from the government of the U. S. on the part of the Ohio Company of Associates. By contract between these two parties, two townships were set apart for the purpose of a university and placed under care of the legislature. In 1799 the territorial legislature appointed three men to lay off the grounds for the university and in Jan., 1802, the territorial act was passed establishing the university at the town of Athens, under the name of the American Western University. Nothing was done to carry into effect the provisions of this act. On Feb. 18, 1804, the state legislature passed the act establishing the university under the name of Ohio University.

For a note rel. to the origin of the University, see Lands. Land Grants. College Townships.

See also Legal History of the Ohio University, 336 pp. (Ohio Univ. Bull. n. s., v. 7, no. 4, 1910.) An earlier edition compiled by authority of the trustees had been published in Columbus in 1881. 166 pp.

1888

In this year no fertilizer inspection repts. were issued. On p. 4 of the Crop report of Nov. 1888, it is stated that the increased labor imposed upon the office force of the dept. incidental to the Ohio Centennial, made it impossible to sample fertilizers and to make reports as in previous years. Samples were drawn and delivered to the official chemist, and repts. were sent to mnfrers. as determinations were made. A complete rept. of all fertilizers licensed during the year, was promised for the next crop rept.

TERRITORY NORTHWEST OF THE OHIO

1799-1802

On Oct. 28, 1799, John Smith of Hamilton County, introduced two resolutions as chairman of the Committee of the Whole, viz., that as "the expense of this government is, and will be considerable, and at present there are no funds for the discharge of the same, Resolved that it will be proper for the Governor to appoint an auditor to liquidate the several accounts which have accrued and may accrue against the territory." (House jol. 1799: 68) and "That such audited certificates shall bear an interest of six per centum per annum from date thereof, be received in payment for taxes in this territory, and be redeemable at the territorial treasury, on the first of January, 1792, with gold or silver, current coin of the United States, or at an earlier period if money may be therein (ib., p. 68). John Ludlow, of Hamilton County, on the same day introduced a resolution that it be proper

Shows revenue from tax, by counties, and a general stmt. of expenditures for 1800 and 1801 resp., with an estimated balance to meet the liabilities of 1801.

non-serial

1801. "In the treasury there is nothing and the revenue has not been so productive as was contemplated"—that which has been produced has arisen chiefly from high tax on uncultivated lands, which though not much felt in the territory because large part of lands are held by non-residents, is much complained of abroad. (Govs. mess. 1801.)

——. On difficulty in finding new sources of revenue in infant country like Ohio; every species of moveable property already taxed as high as it can well bear; scarcity of money; utmost economy in expenses becomes an indispensable duty. (*Same* 1801.)

——. Reply to House of Representatives to Govs. ann. message. (House jol. 1801/2: 30.)
Reference to finances, expressing hope that when money arising from revenue law is deposited, territory will be enabled to discharge all demands agst. it at time.

——. Govs. reply to address of House in reply to his ann. message. (*Same* 1801/2: 33-35.)

The tabular items for General Revenue and General Distribution are misplaced in this report. They should immediately follow the narrative portion of the report, instead they have become confused with the tabulations under "Common School." Care should therefore be exercised in making castings from this report.

Auditor's Supplementary Report

A rept. showing the receipts and expenditures from the close of the fiscal year to the dates given below for the respective reports, together with the estimates for the following year. The early repts. are usually referred to as the auditor's repts. on the tax collectors' accounts, and they do not show the estimates.

1809-1843. Auditor's supplementary report.

Comptroller's Annual Report

The enactments creating the office of comptroller of the treasury, and prescribing the duties of the comptroller, are embraced in three statutes, viz., "An act to provide for better regulation of the receipts, disbursements, and safe-keeping of the public revenues"; "An act to establish the Independent Treasury of the State of Ohio"; and "An act to provide for the semi-annual collection of taxes," all passed April 12, 1858. It was the duty of this office to keep a distinct account with each fund in the treasury; to certify into the treasury all revenues, from whatsoever source derived; to look after outstanding claims due the treasury; to examine and file a duplicate of all claims upon which the warrants of the auditor are predicated, and to countersign such warrants; to keep an account of the securities deposited by the independent and free banking companies for the ultimate redemption of their circulation and a detailed account of the circulation of each such bank.

Stmt. of condition of the finances at date; general revenue; canal funds; Va. military school fund; U. S. military school fund, Conn. West. Res. school fund; section no. 29; school section 16; literary fund; 3 % fund; penitentiary fund; Wabash and Erie Canal fund.

——. Rept. of the standing committee on finance, after having examined the books, vouchers and accts. of the treasurer and other officers so as to see whether they corresponded with ann. repts to the Gen. Assem. (House jol. 1837/8: 743-750.)

1842. Feb. 10. Communication from the auditor of state (Brough) rel. to depreciated bank paper, the literary fund, and drafts to turnpike cos. 3 pp. (Exec. docs. 1841/2 pt. 2 doc. 64.)

The Granville Society (exercising banking powers) and the Urbana Bank became defunct in Jan., 1842. At the time, paper of these institutions was in the hands of collectors of canal tolls. The question submitted by the auditor for determination is as to the responsibility for the funds until paid over to the state.

The second point submitted by the auditor is as to the application of moneys arising from licenses to auctioneers. Under the act of March 14, 1831, such revenues were set apart as a literary fund. In the revision of 1841 of this act the above provision was omitted and the funds reverted to the general fund. The auditor having failed to notice the omission has paid the money to the literary fund up to Jan., 1841, and now asks for instructions.

The third point submitted is the claims of turnpike cos. for the payment of the drafts authorized to be issued by the auditor for the amt. due on the state subscription upon receiving the 60-day repts. of turnpike cos. under the act granting a loan of credit by the state to r.r. cos., the fund comrs. having declined to provide means for the redemption of the drafts until the ensuing season.

——. Dec. 15. Failure of General Assembly to pass bills submitted in 1868 by the comn. apptd. in 1867 to revise revenue and finance laws. (*Same* 1868/9: 16.)

Certain bills, which he enumerated, were rewritten by the auditor. The auditor (James H. Godman), A. F. Perry and C. E. Glidden composed the commission.

——. Dec. 15. Transfers of funds in the treasury; on diversion of funds from sinking fund to general revenue fund and vice versa; stmt. of transfers made in 1869. (*Same* 1868/9: 21-24.)

——. Dec. 15. Taxation and public expenditures; evils of excessive taxation; proposed retrenchments. (*Same* 1868/9: 19-21.)

Auditor proposes discontinuance of office of comptroller and comr. of r.rs. and telegraphs and many minor offices. Of the latter he says (p. 20): "I propose to abolish, at one blow, some 1500, by the passage of the new tax law." In further defence of retrenchment he says (p. 21): "There is such a mania for office, for squandering the public moneys in fat jobs to favorite contractors, and improvident purchase of property from favorites at exorbitant prices, that . . . . there is danger of great public demoralization."

1870. On resumption of specie payments; suggested that legisl. fix day, after which gold shall be paid on all its debts contracted prior to passage of legal-tender act, and provide means therefor. (*Same* 1869/70: 15-16.)

1872. Inadequate balances and the remedy; deficit in revenue fund; increase of levy for general revenue purposes of 6/10 of a mill on the dollar. (*Same* 1871/2: 4.)

1873. Inadequate balances in treasury; small balance of general revenue fund remaining, due to smaller sum than expected having been spent on public institutions and recovery of $94,000 from U. S. govt. on acct. of war claims; temporary transfers of funds, probability of liquidating these "accommodation debts." (*Same* 1872/3: 5-6.)

——. Memorandum as to administration of finances; "I know of no simpler or better devised plan in force in the management of the finances of any of our sister states." (*Same* 1873: 6.)

——. Rept. of the investigating committee (Ball) apptd. to rept. to the House whether any money has been drawn from the state treasury without authority of law; and whether corrupt contracts or expenditures have been made affecting state treasury, etc. (House jol. 1873 app. pp. 17-21.)

——. Treasury rept. Rept. of special comr. and the auditor of state, on the condition of the treasury, in June 1857, made in pursuance of the acts of April 8, 1856 and March 30, 1857, to the Gov. Columbus, Richard Nevins, 1857. 59 pp.

——. Same. (Sen. jol. 1858 app. pp. 33-91.)

Copy seen in N. Y. Public Library and in Marietta College Library. Thos. Sparrow was comr. and Francis M. Wright auditor. Until the passage of the Act of April 8, 1856, there was no law in Ohio requiring thorough periodical examinations of the treasury. Previous to 1856 examinations had been made at long and irregular intervals by committees of the Legislature and by special comns. apptd. by jt. res.

Between the time of the passage of the above cited acts and the making of this rept. several examinations of the treasury were made. Contemporaneous with the enactment of the law of 1856 the Senate apptd. a committee consisting of Messrs. Kelley, Marsh, Taylor, and Buckland, with instructions to inquire into condition of the treasury, its funds and accts. This committee reported to the Senate on April 7, 1856. The legislative duties of this committee did not permit it to make a critical and thorough examination of the treasury. It relied on the stmts. of the treasurer as to condition of

funds and nothing was elicited to show they were not under his control.

On April 11, 1856, an Act was passed authorizing the apptmt. of a joint committee on finance, and requiring it to investigate, during the recess of the General Assembly, "all the transactions of the public agts. who now have or heretofore have had the custody or disbursement of the public moneys . . . ." This committee was occupied during the whole summer of 1856 in the discharge of its duties, and made an elaborate report to the Senate on Jan. 30, 1857.

The last previous examination into the condition of the treasury by a jt. committee had been made in 1847 on the expiration of the term of Joseph Whitehill as treasurer and the accession of Mr. Bliss to that office. This report does not go back of the examination then made, but gives a full stmt. of condition of the funds of the state on Dec. 15, 1855. There was, apparently, no deficiency in the funds at that date.

The committee was composed of R. W. Tayler, B. F. Smith and John A. Sinnet. The rept. is accompanied by correspondence, testimony and stmts. by J. G. Breslin and others. These accompanying documents are omitted from the Sen. jol. In closing its rept. the committee recommends various measures tending to avert the evils which occasioned the inquiry.

In the stmt. on p. 5 of this message relative to revenue yielded to the funds by direct taxation, the amts. resp. for state purposes and for canal purposes are transposed. As the difference in the amts. is over $600,000, a careless reproduction of this stmt. might prove very misleading. The copy of this message in the N. Y. Public Library is an author's presentation copy and a note of the transposition cited is made in the margin of the message in the author's handwriting.

Auditor's Statement

The collector of Ohio documents is cautioned that a file of the auditor's report is not complete without a file of the auditor's Detailed Statement, published from 1853 to 1871. During the years in which the latter was published it contains the only itemized expenditure accounts. Those accounts appearing in the auditor's annual reports are in aggregate only.

The tabular part of the auditor's report is arranged in such a way, in the early years, that it has not been possible to make ordinary index entries of the items composing it. To make such entries some fixity of arrangement and of headings is necessary in order that the user of the index may identify the material indexed. This not being the case, index entries have in the main been abandoned, and in their place an analysis of the reports is made.

From 1803 to 1816, inclusive, there is no arrangement whatever of items of receipt or of expenditure. The first appearance of an arrangement is in 1817 and proceeds as follows:

1817-1821. Receipts; expenditures; estimates; 3% fund.

1822-1826. Same; unexpended balances; Virginia military fund.

1827. Same; Virginia military school fund.

1828-1835. Same; U. S. military district; taxes.

1836-1839. General revenue; general disbursements; school funds; canal funds; road funds; items of expenditure; unexpended balances; estimates.

1840. General revenue; general disbursements; Ohio Penitentiary; items of expenditure; unexpended balances; appropriations overdrawn; dept. of public works.

1841. Same; U. S. road fund; Commercial Hospital and Lunatic Asylum; surplus revenue.

1842-1844. Same; literary fund; school funds (Va. military, U. S. military, common school, Conn. Western Reserve, Section 16, Section 29, Ohio University); surplus revenue interest fund; 3% fund.

1845. Same; turnpike stocks and dividends; estimates; dept. public works.

1846. Same; state debt.

1847. I General aggregate stmt. of receipts and disbursements; II Estimates; III Detailed stmt. of receipts and disbursements of the several funds and balances of each fund; IV Stmt. of the several appropriations, amt. expended and balance of each apprn.; V Dept. of public works.

1848-1849. Same; VI State dept; VII appendix of statistical tables.

1850-1852. Same; sinking fund stmt. added.

1853-1904. The items included are substantially the same as in the foregoing stmt. although the arrangement of them varies almost from year to year. The absence of class headings and the indiscriminate use of the same type for minor and for main headings makes the arrangement seem unnecessarily confused and impossible to index.

GENERAL REVENUE FUND

This fund, as its name indicates, is composed of the ordinary revenues of government and is devoted to the ordinary expenditures. Its segregation as a fund in the auditor's and treasurer's reports first appears in 1836. It has seemed better not to separate the material in the present index but to treat it together with other material relating to revenue and expenditures.

1878. Artificial fish breeding in O.; by E. D. Potter. (A.R. secy. state 1878: 642-647.)
Covers operations from 1853 to date.

——. Ohio streams deprived of migratory fish owing to custom of West Virginians and Kentuckians to place seines across outlets of Ohio streams on Ohio side; not violation of law; suggested that Congress be memorialized to change boundary line. (Govs. mess. (Young) Jan. 1878: 18-20.)

FISH AND GAME—cont'd

Fish—cont'd

1878. Rept. on fishes of O.; by David S. Jordan. (Rept. of geol. survey v. 4, pt. 1: 735-1002.)
Acct. of earlier publications treating wholly or chiefly of local fish fauna precedes scientific rept.

1879. Complaints of wholesale destruction of river and pond fish; laws for their protection not enforced, no one to see that laws are executed; further legislation needed to prevent pollution and poisoning of rivers and ponds, by wastes of stills and mills. (4 A.R. fish comn. 1879: 9-10.)

1881. Deposits in interior streams of young fry. (6 *same* 1881/2: 12.)

——. Recommendation that act making it lawful to spear and shoot fish be repealed. (6 *same* 1881/2: 6.)

1883. Summary of deposits of young fry during year. (8 *same* 1883: 28.)

——. Present law makes it duty of comn. to enforce fish laws, but does not provide money to do it with; suggested that portion of apprn. be set apart for for that purpose; subject of creation of office of fish warden urged upon consideration of legisl. (8 *same* 1883: 14-15.)

1886. Work of fish comn. during 1885 most successful in history of enterprise; distribution of black bass and carp; white fish in Lake Erie; expenditure. (Govs. mess. (Hoadly) Jan. 1886: 36.)

1886-1887. Recommended that co. comrs. be empowered to grant to co. wardens yearly salary of not more than $100 to be paid out of dog fund, and state comrs. of fish and game to pay like sum to wardens of reservoirs, also that one half of fines assessed be given to officer making arrest; that enactment and apprn. for enforcement of fish law be amended to include game laws; that state warden for yr. and lake warden for four mos. in yr. be apptd., expenses of same not to exceed $1600. 1892-1895. On necessity of providing house for state fish car; offer of Sandusky Water Works Bd. to provide ground and pay half of cost of side track necessary for this purpose. (17 *same* 1892 (p. 5)—20 *same* 1895.)

1894. Opinion as to what constitutes "an artificial fish pond" within exception provided near close of sec. 6986. (A.R. atty. gen. 1894: 51.)

1895. Increased apprn. asked for; work of distribution of fish could not have been carried on if a no. of the r.rs. had not allowed fish car free transportation. (20 A.R. fish and game comn. 1895: 7-8.)

——. Opinion as to where trot line fishing is allowed under sec. 6968c passed Apr. 19, 1894, and as to what backwaters of Ohio river include in proviso at end of sec. 6968. (A.R. atty. gen. 1895: 38-39.)

1896. Opinion that shooting or spearing of fish is unlawful. (*Same* 1896: 60-61.)

FISH AND GAME—cont'd

Fish—cont'd

1896. List of public streams in state stocked with fish during year. (21 A.R. fish and game comn. 1896: 8.)

1900. No great benefits can be derived from propagation and distribution of fish and pheasants unless adequate laws are made for their protection; no fish and game law enacted in history of comn. that has not been in some part declared unconstitutional; in consequence of defective laws comn. subjected to expensive and adverse litigation. (*Same* 1899/00: 3.)

——. Present law, compelling fishermen to pay tonnage tax of 50c per ton on all fish caught, is not generally complied with; impracticable; remedial legislation needed; recommending stringent laws prohibiting setting of traps—nets on spawning beds in vicinity of Put-in-Bay, and the closing of Sandusky Bay to fishermen. (*Same* 1899/00: 17-18.)

1901. As to whether trot line fishing is permitted in reservoirs of state; opinion of atty. gen. (A.R. atty. gen. 1901: 495-496.)

1901-1902. Wholesale violations of propriety, if not of law, at Lewistown Reservoir (Indian Lake) during last season, suggests need of amdmt. of act seeking to regulate fishing there, also at Mercer Co. Reservoir; sale of black bass taken from waters controlled by state should be prohibited. (A.R. fish and game comn. 1900/1 (pp. 6-7)—*same* 1901/2.)

1904. Construction of late game laws rel. to fishing; opinion of atty. gen. (A.R. atty. gen. 1903/4: 148-149.)

——. Authority of fish and game comn. to issue permits for taking of fish for scientific purposes; opinion of atty. gen. (*Same* 1903/4: 149.)

1885-1890. Comparative statistics of lake fisheries of state in 1885 and 1890—tables of persons employed, of apparatus and capital, and of amt. of products by species with total values for each year. (16 A.R. fish and game comn. 1891: 10-11.)

1888. Recommended that all lake fishermen be required to make ann. returns of catch; that survey and plat be made of lake fishing grounds and that these be leased for terms of years to highest bidders; as this survey will require a year for completion that a tax be levied upon pounds and traps of $15 each for each season; also that new hatching house be constructed at Sandusky double capacity of old one. (13 *same* 1888: 646-647.)
Paging from Collected docs.

1890. Owing to small apprn. granted to comrs. at last sess., and to repeal of act to license nets; funds were not sufficient to accomplish proposed work; apprn. recommended to complete survey and the platting of lake fishing grounds, also to examine various rivers, ponds and streams of state as directed by law to ascertain whether they can be

1892. Rept. of the state fish and game comrs. rel. to fish nets seized for non-payment of certain taxes imposed by act to regulate by taxation the use of fishing nets in Lake Erie and reservoirs of state. (House jol. 1892 app. p. 95.)

——. See also above, Fish and Game, this date.

1894-1895. Lake Erie fisheries; from 1882-1890 supply of fish increased steadily, since that time they have decreased steadily; causes of same; remedial legislation. (19 A.R. fish and game comn. 1894 (pp. 5-6)—20 *same* 1895.)

1896. Owing to carelessness of the Gen. Assem. laws were so changed from what was asked for by the Comn. that they are well nigh worthless; review of laws regulating fishing in waters of Lake Erie and causes making them inoperative, remedial legislation suggested; recommended that provision be made to purchase and maintain boat to patrol these waters. (21 *same* 1896: 5-7.)

——. Stmt. of quantity of fish caught, no. of boats and men employed, amt. of apparatus used, and total amt. of tax paid into state treasury by Lake Erie fishermen. (21 *same* 1896: 7.)

1898. Perpetuation of fish supply in Lake Erie endangered through use of nets; law in need of revision. (Govs. mess. (Bushnell) Jan. 1898.)

1900. Efficiency of fish and game comn.; enforcement of fishing laws in Lake Erie; removal of pheasantry from Van Wert to Madison Co.; generous apprns. recommended. (*Same* (Bushnell) Jan. 1900.)

——. Apprn. of $12,000 made for building and equipping a patrol-boat for Lake Erie; fishing interests in lake are so conflicting that they fail to agree on any law; feeling engendered in attempts to enforce present laws so strong that it was impossible to employ boat for that purpose at a reasonable price. (A.R. fish and game comn. 1899/00: 4.)

1901-1904. On imperative need that some radical amdmts. be made to Ohio laws regulating fishing in Lake Erie, if the fishing industry is not to be ruined. (*Same* 1900/1 (pp. 4-5)—*same* 1904.)

1902. See above, Fish and Game, this date.

1904. Under present Ohio laws "regulating" Lake Erie fishing there is no close season during spawning period, no limitation upon no. of nets that may be used, no prohibition as to undersized fish save in two kinds practically extinct, and no restriction as to kind and condition of fish that may be offered for sale; measure of last sess. rel. to same defeated by selfishness of lake fishermen; Ontario has good regulations but is embarrassed by American attitude; recapitulation of present conditions as to laws regulating lake fishing in all states bordering on same; statistics of two Canadian counties showing decrease in herring and white fish catch in past 5 years; no reliable statistics of catch in American waters to be obtained.
